the advancement of neuroimaging techniques such as PET and fMRI in the last decade basic questions on the psychological mechanisms underlying modulatory effects of deception and information concealment on behavioral autonomic and brain responses are still poorly understood This Research Topic brings together contributions from researchers in experimental psychology psychophysiology and neuroscience focusing on the understanding of the broad concept of deception including the detection of concealed information with respect to basic research questions as well as applied issues This Research Topic is mainly composed of original research articles but reviews and papers elaborating on novel methodological approaches have also been included Experimental methods include but are not limited to behavioral autonomic electroencephalographic or brain imaging techniques that allow for revealing relevant facets of deception on a multimodal level While this Research Topic primarily includes laboratory work relevant issues for the field use of such methods are also discussed Issues in Women's Health and Women's Studies Research: 2011 Edition ,2012-01-09 Issues in Women s Health and Women s Studies Research 2011 Edition is a ScholarlyEditions eBook that delivers timely authoritative and comprehensive information about Women s Health and Women s Studies Research The editors have built Issues in Women s Health and Women s Studies Research 2011 Edition on the vast information databases of ScholarlyNews You can expect the information about Women s Health and Women s Studies Research in this eBook to be deeper than what you can access anywhere else as well as consistently reliable authoritative informed and relevant The content of Issues in Women s Health and Women s Studies Research 2011 Edition has been produced by the world s leading scientists engineers analysts research institutions and companies All of the content is from peer reviewed sources and all of it is written assembled and edited by the editors at ScholarlyEditions and available exclusively from us You now have a source you can cite with authority confidence and credibility More information is available at <http://www.ScholarlyEditions.com> *ECKM 2019 20th European Conference on Knowledge Management 2 VOLS* Dr. Eduardo Tomé,2019-09-05 **Global Trends in Governance and Policy Paradigms** Hamdan, Mahani,Anshari, Muhammad,Ahmad, Norainie,Ali, Emil,2024-04-09 Major paradigm shifts are occurring at rates that are difficult to keep up with such as a rise in neoliberal paradigm trends the emergence of new paradigms in response to global challenges the role of international organizations in promoting new policy paradigms and the challenges of implementing new policy paradigms in different national contexts To remain informed a reference of these shifts is needed Global Trends in Governance and Policy Paradigms dissects the intricate fabric of global governance through the lens of evolving policy paradigms This book explores key themes that have shaped and continue to influence the trajectory of global policy and contemporary governance The narrative unfolds by scrutinizing the ascendancy of the neoliberal paradigm and dissecting its impact on global governance structures Beyond this the text navigates through the dynamic responses of the international community to emerging global challenges highlighting the role of influential international organizations in shaping and propagating innovative policy paradigms This book establishes a comprehensive framework for understanding

little consensus on just which methods are the most effective for the study of consciousness. As a result a wide range of experimental paradigms have been employed sometimes making it difficult to compare and contrast experimental findings. **Behavioral Methods in Consciousness Research** is the first book of its kind providing an overview of methods and approaches for studying consciousness. The chapters are written by leading researchers and experts who describe the methods they actually use in their own studies along with their pitfalls, problems and difficulties. For all students and researchers embarking on research in this area and even seasoned researchers this book is a valuable source of information in helping them design, perform and analyze scientifically rigorous experiments.

***Progress in Episodic Memory Research*** Ekrem Dere, Armin Zlomuzica, Angelica Staniloiu, Hans J. Markowitsch, 2016-05-25. Episodic memory refers to the ability to remember personal experiences in terms of what happened and where and when it happened. Humans are also able to remember the specific perceptions, emotions and thoughts they had during a particular experience. This highly sophisticated and unique memory system is extremely sensitive to cerebral aging, neurodegenerative and neuropsychiatric diseases. The field of episodic memory research is a continuously expanding and fascinating area that unites a broad spectrum of scientists who represent a variety of research disciplines including neurobiology, medicine, psychology and philosophy. Nevertheless, important questions still remain to be addressed. This research topic on the **Progress in Episodic Memory Research** covers past and current directions in research dedicated to the neurobiology, neuropathology, development, measurement and treatment of episodic memory.

***Connecting ICTs to Development*** Laurent Elder, Heloise Emdon, Richard Fuchs, Ben Petrazzini, 2013-12-01. Over the past two decades, projects supported by the International Development Research Centre (IDRC) have critically examined the ways in which information and communications technologies (ICTs) can be used to improve learning, empower the disenfranchised, generate income opportunities for the poor and facilitate access to healthcare in Africa, Asia, Latin America and the Caribbean. Considering that most development institutions and governments are currently attempting to integrate ICTs into their practices, it is an opportune time to reflect on the research findings that have emerged from IDRC's work and research in this area. **Connecting ICTs to Development** discusses programmatic investments made by IDRC in a wide variety of areas related to ICTs, including infrastructure, access, regulations, health, governance, education, livelihoods, social inclusion, technical innovation, intellectual property rights and evaluation. Each chapter in this book analyzes the ways in which research findings from IDRC-supported projects have contributed to an evolution of thinking and discusses successes and challenges in using ICTs as tools to address development issues. The volume also presents key lessons learned from ICT4D programming and recommendations for future work.
