Engineers around the world are increasingly turning to online components and tools to create a more integrated picture of the state of California's water system and the ability to adjust to future challenges.

• **Input:** a sequence of *Latent Space Representations* (code vectors) used to generate a sequence of images or a video (any format possible) (think: content filter or generative model) where the latent vector is represented with a *latent space* (vector) encoding data base. (This means a *latent space* can have several uses.)
