INTRODUCTION

This Landmaster machine has been designed to combine the best features of the original and proved smaller commercial range of Landmaster machines.

This advanced machine is powered by a tough reliable engine, carefully selected to give satisfactory performance for the wide range of tasks of which the machine is capable, with economy and long life characteristics for the owner who observes a few simple rules of operation and care.

This is the ideal machine for those with multiple sized gardens who seek to take the heavy physical work out of flower, vegetable and grass cultivation routines.

No task is too great to adapt the machine—attachments are available for digging, tining, weeding, ridging, lawn mowing, grass mowing and hedge trimming—all these can be tried to the novice in minutes who will then possess the key to a whole series of different power gardening techniques.

The power unit is a 2 hp. 4 stroke engine run on ordinary unleaded grade petrol, and started by means of a compact, robust, hand lever of proved design.

The fuel tank has a 2 pint (1.14 litre) capacity.

The engine speed control, or throttle lever, is conveniently located on the handle and has clearly marked settings. A choke lever is positioned below the engine on start.

The clutch mechanism conveys drive from the engine pulley to the drive shaft pulley. When the clutch lever is in the down (disengaged) position, the engine is "freerunning". When the clutch lever is in the raised (engaged) position, power is transmitted to the main attachment, i.e. other blades, spin wheels, etc. The clutch lever incorporates a return trigger to hold the lever in the drive position.

Engine lubrication is from an oil-bath which is filled through a convenient dipstick/breather plug. Oil is poured through a plug in the engine base.

A simple removable drive shaft bracket, drive from the engine to the attachment pulley. This bracket is mounted in the engine drive hole and secured by the standard drive bolt. Tighten the nut on the bracket located below the handlebar member.
