**Colorado. State Board of Land
Commissioners**

Lyt En Bog:

Valuing Quality in Early Childhood Services Peter Moss, Alan Pence, 1994-10-28 Not only does this book offer a great deal of insight into evaluating early childhood services it also provides a focal point for those interested in establishing goals objectives and evaluation criteria for their own early childhood programmes Early Years Quality has become a priority issue for all concerned with early childhood care and education services Starting from the premise that quality is a relative and dynamic concept based on values and beliefs *Valuing Quality in Early Childhood Services* examines how the definitions of quality are established and who is involved in their establishment The book advocates that the process should involve a range of stakeholder groups including children parents staff care providers researchers employers and the community A key issue that emerges is the need for new and creative approaches to the development of an inclusionary process in the definitions and attainment of quality care

Rethinking Welfare Iain Ferguson, Michael Lavalette, Gerry Mooney, 2002-07-09 I would encourage undergraduates students to read it for it does summarise well a classical Marxist analysis of social policy and welfare Social Policy The anti capitalist movement is increasingly challenging the global hegemony of neo liberalism The arguments against the neo liberal agenda are clearly articulated in *Rethinking Welfare* The authors highlight the growing inequalities and decimation of state welfare and use Marxist approaches to contemporary social policy to provide a defence of the welfare state Divided into three main sections the first part of this volume looks at the growth of inequality and social and environmental degradation Part Two centres on the authors argument for the relevance of core Marxists concepts in aiding our understanding of social policy This section includes Marxist approaches to a range of welfare issues and their implications for studying welfare regimes and practices Issues covered include Class and class struggle Oppression Alienation and the family The last part of the book explores the question of globalization and the consequences of international neo liberalism on indebted countries as well as the neo liberal agenda of the Conservative and New Labour governments in Britain The authors conclude with the prospect of an alternative welfare future which may form part of the challenge against global neo liberalism
