**Mathematics and Scientific Computing** B. Rushi Kumar, R. Sivaraj, B. S. R. V. Prasad, M. Nalliah, A. Subramanyam Reddy, 2019-02-01. This volume is the first of two containing selected papers from the International Conference on Advances in Mathematical Sciences (ICAMS) held at the Vellore Institute of Technology in December 2017. This meeting brought together researchers from around the world to share their work with the aim of promoting collaboration as a means of solving various problems in modern science and engineering. The authors of each chapter present a research problem, techniques suitable for solving it, and a discussion of the results obtained. These volumes will be of interest to both theoretical and application-oriented individuals in academia and industry. Papers in Volume I are dedicated to active and open areas of research in algebra, analysis, operations research, and statistics, and those of Volume II consider differential equations, fluid mechanics, and graph theory. **Rethinking and Reviving Subject English** Pete Bennett, Louise Lambert, Rob

Smith, 2022-09-27. This book invites readers to engage with the rich and complex debates of contemporary English education, outlining new possibilities to revive the teaching of English. Bringing together diverse voices and insights from educators in English across the primary, secondary, further, and higher education phases, the book offers reflections and critical engagement with the lived experiences of English teachers and pupils in contemporary educational spaces. Each chapter includes example vignettes from classrooms which tell something of the story of English teaching today. The book considers how politics and policy have worked to close the opportunities of the English classroom for self-expression and critical engagement with the world. A murder. The authors then offer an exploration of the opportunities for a re-imagining of English: the murmurs of teachers and pupils that resist such closures. The chapters explore new thinking, new practices, and new possibilities for English classrooms as inclusive, emancipatory, critical, and creative spaces. Offering a thoughtful and hopeful dialogue from practising English teacher-researchers, the book will be essential reading for researchers and students of English language and literature education, as well as trainee teachers of English. **Disha 22 Year-wise SBI PO**
