Quicklet on House Season 5 Tom Tonthat, 2012-07-30 ABOUT THE BOOK Season 5 of the hit Fox medical drama series House follows the life and times of the brilliant but sociopathic Dr Gregory House as he and his medical team solve difficult and life threatening cases at the fictional Princeton Plainsboro Teaching Hospital in New Jersey The fifth season of House provides some wonderful character development and has a powerful finale As a television series House has been entertaining as a medical drama mystery and even a comedy The medical terminology is relatively accurate for a one hour television show compared to the faux science of CSI Each episode of House is a mystery where the medical staff must locate the clues and find the diagnosis before time runs out for their patient Sometimes even knowing the diagnosis is not enough to save the patient's life Most of the comedy comes from House's need to undermine authority or knock people off their high horse when he feels that one deserves it And to House they always deserve it MEET THE AUTHOR With a BS in Business Administration and a Technical Writing Certificate Tom Tonthat has written anime reviews for The Escapist video game and television articles for Yahoo and the occasional instructional manual He loves anime origami toys films television and comics Find Tom Tonthat on Facebook <http://www.facebook.com/kvalentine> Twitter TravelValenti Site Travelingvalentine.com EXCERPT FROM THE BOOK The importance of the rational versus the intuitive is a major theme toward the end of the season when House blurs the line between the two He manages to rationalize his intuition and blur his reality and fantasy He feels that he is in control but Wilson knows that House lives life dangerously When the bombshell about him and Cuddy drops House soon realizes that he can only be hurt by those he is attached to emotionally House is the brainchild of David Shore whose previous television production experience includes producing two late 90s seasons of Law Order and writing for a variety of shows like NYPD Blue Due South The Practice and The Outer Limits He was asked to come up with a medical procedural show for NBC in 2003 David's idea was to make the medical procedural show emphasize the characters over the medicine since it made for more compelling television He decided to base the protagonist of his medical show on Sherlock Holmes and became the creator writer and producer of House NBC decided to pass on House and instead chose Medical Investigation as its medical procedural show of choice Medical Investigation was a medical mystery drama filled with an eclectic staff of medical geniuses that no one really watched and only lasted one season Fortunately Fox picked up on David Shore's medical drama and the rest is television history CHAPTER OUTLINE Quicklet on House Season 5 About the Show

Comparative Studies in British and American Cultures is a collection of articles exploring a variety of cultural texts such as fiction film drama poetry and critical thought in order to present the on going transfer of ideas and processes of complementation that characterise cultural re production The analyses gathered in the volume document the shifting ways of thinking about individual identity and social formations describe the mobility of definitions of gender and nationality and address the changing relations between various genres and disciplines through adaptation and re writing All of these preoccupations can be located within the broad domain of Comparative Studies drawing comparisons across time space

societies cultures genres media and disciplines The scope of the themes covered by the essays comprising this volume not only confirms the significance of comparative studies in contemporary cultural research but also testifies to the validity of comparative methods both in individual critical analysis and the writing process Beneath the well defined divisions of comparative studies in their inter disciplinary preoccupations such as comparisons involved in translation adaptation cross cultural studies or relationships between various arts this volume exposes to what extent individual cultural texts are founded on comparative structures and concepts conceptualised through analogies changes and internal splits Mr. Monk and Philosophy D. E. Wittkower, 2011-04-15 Mr Monk and Philosophy is a carefully and neatly organized collection of eighteen chapters divided into exactly six groups of precisely three chapters each Drawing on a wide range of philosophers from Aristotle and Diogenes to Siddhartha Gautama and St Thomas Aquinas to David Hume and Karl Popper the authors ask how Adrian Monk solves his cases why he is the way he is how he thinks and what we can learn from him Some of the authors suggest Monk is a kind of tragic hero whose flaws help us live out and expunge the fear and anxiety we all experience that he is more than just his personality or memories but something more individual and indefinable and that his most distinctive traits are not the traits that make him a detective but those that make him a friend His most notable trait is the dedication he shows to his late wife Trudy Other authors explore how Monk encounters the world arguing that his genius comes not from logic or reasoning but from his ability to see his surroundings in a pre conceptualized way that there isn't as much distance between his rational beliefs about crimes and evidence and his irrational phobic beliefs as there might seem and that his phobias have themselves made him approach himself and the world as something to be overcome Just how does Mr Monk come to his conclusions Does he use inductive deductive or abductive reasoning Is he dependent on a false notion of the law of noncontradiction Is it possible that his reasoning might have more to do with constructing harmonious stories than it does with evidence causes or insights Some contributors ponder Monk's name and what it means given his views on religion Some authors argue that Mr Monk's approach to the world is fundamentally similar to that of medieval monastic orders that his rituals and deductive dancing show how he exhibits a kind of shamanism and that he acts in accordance with the Bodhisattva ideal bringing others to enlightenment through circumstances and by accident even though he has no such intention or goal In one chapter the author asks how the character Monk is related to other similar characters arguing that Monk and House are closely related characters each based on the conflict between reason and emotion which exemplifies the motif of the troubled genius that Monk and House both pursue ethical practices and goals even as they fail at the everyday face to face ethics of normal social interactions and that great detectives all through their flaws help us to understand and forgive ourselves for our flaws And finally there are several chapters in which the authors consider Monk from the psychologist's perspective discussing how Monk's relationship with Trudy while having unhealthy codependent elements demonstrates some important aspects of successful romantic partnerships how laughter plays a difficult role in mental illness

and the difficult position that the show and therapists are placed in when having to treat seriously disorders that are both tragic and comic and how from a psychoanalytic perspective Monk's inability to mourn shows us why we both reject and are drawn towards death In the words of author D E Wittkower In order to be sure that the reader is able to enjoy the book every chapter will have an even number of words You'll thank me later
