Fake News Briefs Media Distortions English Edition:

Drums: Distortions, Rumours, Untruths, Misinformation, And Smears Norman Vasu, Benjamin Ang, Shashi Jayakumar, 2018-12-17 Fake news is not new and this issue poses an even greater challenge now. The speed of information has increased drastically with messages now spreading internationally within seconds online. With countless photographs, opinions, and hours of video published online, every falsehood proliferates rapidly. Readers are overwhelmed by the flood of information, but older markers of veracity, respected publications, official sources have not kept up, nor has there been a commensurate growth in the ability to counter false or fake news. In many cases, staid publications of record, such as newspapers, have been eclipsed by new, visually attractive and sometimes false sources of information. All this has given an opportunity to those seeking to destabilize a state or to push their perspectives to the fore. Modern disinformation operations only need free Twitter or Facebook accounts or access to platforms such as WhatsApp or Telegram. **DRUMS: Distortions, Rumours, Untruths, Misinformation, and Smears** deals with the appeal of **DRUMS**, the ways **DRUMS** is employed, and measures to counter it. Organized in three sections: i Cognitive Predispositions and **DRUMS**, ii The Employment of **DRUMS**, and iii Countering **DRUMS**, this book offers a holistic discussion through the different specializations and different experiences of its academic, think-tanker, or policy-practitioner contributors. **DRUMS: Distortions, Rumours, Untruths, Misinformation, and Smears** aims to serve those new to the topic or subject-matter specialists seeking to widen their knowledge on other elements of the issue. *Theorizing Mediated Information Distortion* Brian H. Spitzberg, 2023-09-08 This book explores the phenomenon of distortion of information through media via the lens of the COVID-19 pandemic and the ways in which relevant information distortion and virality have occurred in regard to the disease and its risks. Positing that the interrelated processes of misinformation, disinformation, fake news, and conspiracy theories are related forms of distortion of information through media, DIM, and can only be understood through a multilevel theoretical model that incorporates message-based, individual difference, social network-based, societal, and geotechnical factors, Brian H. Spitzberg develops an integrative, well-argued, and well-evidenced framework within which these issues can and should be addressed. This book offers a model for further research across such disciplines as communication, journalism, media studies, political science, sociology, cognitive psychology, social psychology, evolutionary psychology, public health, big data analytics, social network analytics, computational linguistics, and geographic information sciences, and will interest researchers and students in those areas. **Navigating Complexity, AI, and Legal Challenges in Organizations** Dall'Acqua, Luisa, Gironacci, Irene Maria, 2025-10-09 Artificial intelligence (AI) is a strategic asset in global politics, with countries investing heavily in AI research and development to gain competitive advantages. Optimism, Literature, and Culture in American Capitalism and Chinese Socialism Wendy Larson, 2025-10-09 This book examines and interprets the uncanny similarity between capitalism and socialism over the twentieth century as both systems found ways to encourage happiness and optimism in their citizens As inheritors of the Enlightenment's emphasis on scientific rationality these cultures sought to instill in their citizens a belief in progress in essence history shows steady improvement and the future will continue in this direction indefinitely Optimism which bears a temporal quality a continual gaze to the future is the favored state of mind in both capitalist and socialist societies which have embraced progress as a theory of history Related to optimism is happiness which emphasizes the present When progress as a theory of history is generally accepted happiness becomes a transference of future advancement into present subjectivity ultimately expressing acceptance of and satisfaction with society Fundamentally a literary study strongly embedded in history this project looks to fiction to show not only how imaginary characters became models for readers but also how narrative encouraged readers to engage in a struggle for new values Characters worked out or failed to work out questions related to the personal and larger cultural shaping of an ongoing optimism At the same time writers questioned these models and purposefully or otherwise displayed the downsides of excessive mandated or coerced optimism They also challenged the way in which optimism encompassed a belief in progress that itself could be camouflaged and the demands for a happiness that imposed everyone else's wellbeing before one's own The book compares Yang Mo's famous Song of Youth 1958 with Horatio Alger Jr's Ragged Dick 1868 Eleanor Hodgman Porter's Pollyanna 1913 and Frederick Kohner's Gidget 1957 Wang Meng's Long Live Youth written 1953 and A Young Man Arrives at the Organization Department 1956 are evaluated against Jack Kerouac's On the Road 1958 This study both incorporates and challenges various political and cultural theoretical concepts including revolutionary optimism permanent revolution the theory of literary typicality the New Soviet Person and the positive hero optimistic autosuggestion cultural authenticity and positive thinking
