

## Writing Effective Reports

### A. What are Reports?

Reports are documents which both **give** a reader **information** and ask the reader to **do something** with that information. Reports can be used:

- to suggest new ideas and options;
- to ask people to accept a point of view;
- to influence decisions;
- to ask people to make choices between alternative recommendations

Therefore a well structured and well written report can be a very influential document.

A report will usually follow a simple format which can be identified over and over again as you look through the reports written by academics, agencies or individuals. One of the key issues is to carefully provide signposts' for the reader throughout the report. Use headings, sub headings, bullet points (but remember to use full sentences rather than notes here) and new paragraphs for new topics.

The format may be influenced by the purpose and length of the report. There are nine identifiable sections in most reports, although a contents list and abstract are usually only used with a long report.

- 1 Title or title page
- 2 Contents list
- 3 Abstract
- 4 Introduction
- 5 Discussion
- 6 Conclusions
- 7 Summary
- 8 Recommendations
- 9 Appendices (and don't forget the reference list when writing an academic report)

### B. The Format of a Report

#### 1. Title or title page

It helps the reader to know what the report is about to have a title and sometimes a brief explanation of the purpose of the report. In a longer report you can have a short title and a long, more descriptive title. You should also identify the audience for the report, who has written it (the authors) and when it was written (the date).

1\_3 John and Revelation; New Testament Commentary Christopher Lamb, 2021-02-16 Unlike any other commentary on the New Testament Chris digs into ancient religious culture throughout the known world at the time John wrote his epistles and book on Revelation As the church started to accept and adopt false teaching in their day they began to worship idols in place of God like the Jews when they were sent to Babylon Both Old and New Testament Jewish cultures adopted the same

images from the surrounding nations and began to worship pagan gods No matter Jew or Gentile John s teachings were all understood In today s world though it is different many are not taught after the manner of ancient culture and when one reads the Bible either the Old and New Testaments that references any form of symbolism as figurative language let alone Revelation it is foreign with descriptions of strange beasts candlesticks trumpets vials of wrath harps etc making no modern sense whatsoever However when looked upon with the view from ancient culture religion and myths about the heavens one can better understand the context John taught to the early church The way mainstream interprets the scriptures today has brought about much confusion
