Title of Essay (Centered, same size font)

All essays written in MLA format need to include the information above and should be typed, double spaced, with 12 point, Times New Roman font. Make sure to not have an extra space between paragraphs, which is something that must be changed in the settings; otherwise, Microsoft Word will automatically put extra spaces between paragraphs. To make this change, click on the "Paragraph" drop arrow, check the box that reads "don't add space between paragraphs of the same style," and make sure the spacing before and after boxes are set to zero. Lastly, all margins of the essay should be one inch, which is the default setting for Microsoft Word.

MLA format requires that all sources be cited both within the text and on a works cited page that should appear at the end of the essay. Sources include quotations, opinions, paraphrases, and often other forms of information that originate from another source. In-text citations require author last name, if available, and page number, if source includes one. If no author name can be found (this is sometimes the case with internet sources), the title of the source needs to be included in the text. This information can either be placed in the sentence itself, or in parentheses after the information is given like this: (Merk 42). When the information is placed in parentheses, it is called a parenthetical citation. Page numbers should always be cited parenthetically.

The first paragraph of every essay should introduce the topic and tone of the essay. The

Starting and Finishing the Paper Michael Walters, Ellen Diehl-Matto, 2006-08 *Starting and Finishing the Paper A How to Guide to Quality College Papers Second Edition* is an excellent book for college students having difficulties with writing their college papers. It is a fun and step by step approach from start to finish. *Starting and Finishing the Paper* covers how to start a paper, how to write an introduction, how to handle different assignments, building the body of the paper, plagiarism, proper quoting, paragraph construction, transitions, and writing conclusions. It also contains many writing examples for students to follow. *Starting and Finishing the Paper* is short and to the point but not short on advice to the college student from two professors of writing who have taught for decades. Inside are many insightful comments written by the authors about the pitfalls students fall into and how to avoid them. It is not only written for students taking their first college composition course but also for students who need to write research papers and literary papers.
