Human Resource Research Paper Topics:

Advanced Methods for Human Resource Management Research Paul Joseph-Richard, 2025-01-03 Understanding and applying research methods is a key skill in human resource management. This new textbook shows how to successfully complete a research project across the HR function. Advanced Methods for Human Resource Management Research provides a practice-based approach to planning and implementing research projects. Each chapter focuses on one HRM practice and a Method in Focus feature that shows how a particular method could be used for researching that practice. This enables postgraduate Research Methods students to gain an understanding of how research may be most effectively conducted for different aspects of HR from recruitment selection and people analytics to learning and development, sustainable HRM and employee wellbeing. This book offers comprehensive guidance on what kinds of questions can be asked and the application of current designs and methods. Readers will learn how to conduct both qualitative and quantitative research such as interviews and literature reviews using Big Data, social media and visuals as well as creating cross-country designs to engage international participants. It is supported by learning outcomes, real-world examples, discussion questions and ethical dilemma exercises to develop critical understanding of the material. Online resources include lecturer slides, annotated web links, further reading and new reflective questions for students. This textbook is written for postgraduate HR students taking Research Methods modules as part of their degree.

Human Resources Research, 1887-1987 National Association of State Universities and Land-Grant Colleges. Experiment Station Committee on Organization and Policy, 1986

Innovative Computing Vol 2 - Emerging Topics in Future Internet Jason C. Hung, Jia-Wei Chang, Yan Pei, 2023-04-30 This book comprises select peer-reviewed proceedings of the 6th International Conference on Innovative Computing IC 2023. The contents focus on communication networks, business intelligence and knowledge management, web intelligence and fields related to the development of information technology. The chapters include contributions on various topics such as databases and data mining, networking and communications, web and Internet of Things, embedded systems, soft computing, social network analysis, security and privacy, optical communication and ubiquitous pervasive computing. This volume will serve as a comprehensive overview of the latest advances in information technology for those working as researchers in both academia and industry.

The Adoption and Effect of Artificial Intelligence on Human Resources Management Pallavi Tyagi, Naveen Chilamkurti, Simon Grima, Kiran Sood, Balamurugan Baluswamy, 2023-02-10 Emerald Studies In Finance Insurance And Risk Management 7B explores how AI and Automation enhance the basic functions of human resource management.

Handbook of Research on Artificial Intelligence in Human Resource Management Strohmeier, Stefan, 2022-03-08 This cutting-edge Handbook offers a comprehensive introduction to the emerging research field of artificial intelligence (AI) in human resource management (HRM). Broadly mapping AI fields relevant for HR, it not only considers the more well-known areas of machine learning and natural language processing but also lesser-known fields such as affective computing and robotic process
