Tang Junyi Thomas Fröhlich, 2017-04-18 Tang Junyi's modern Confucianism ranks among the most ambitious philosophical projects in 20th century China In Tang Junyi Confucian Philosophy and the Challenge of Modernity Thomas Fröhlich examines Tang Junyi's intellectual reaction to a time of cataclysmic change marked by two Chinese revolutions 1911 and 1949 two world wars the Cold War period rapid modernization in East Asia and the experience of exile The present study fundamentally questions widespread interpretations that depict modern Confucianism as essentially traditionalist and nationalistic Thomas Fröhlich shows that Tang Junyi actually challenges such interpretations with an insightful understanding of the modern individual's vulnerability as well as a groundbreaking reinterpretation of Confucianism as the civil theological foundation for liberal democracy in China **Do the Humanities Create Knowledge?** Chris Haufe, 2023-12-07 There is in certain circles a widely held belief that the only proper kind of knowledge is scientific knowledge This belief often runs parallel to the notion that legitimate knowledge is obtained when a scientist follows a rigorous investigative procedure called the scientific method Chris Haufe challenges this idea He shows that what we know about the so called scientific method rests fundamentally on the use of finely tuned human judgments directed toward certain questions about the natural world He suggests that this dependence on judgment in fact reveals deep affinities between scientific knowledge and another equally important sort of comprehension that of humanistic creative endeavour His wide ranging and stimulating new book uncovers the unexpected unity underlying all our efforts whether scientific or arts based to understand human experience In so doing it makes a vital contribution to broader conversation about the value of the humanities in an increasingly STEM saturated educational culture **Princeton Alumni Weekly**, 1959 **Land of Tomorrow** Benjamin Mangrum, 2018-10-01 American liberalism after the Second World War turned against the legacies of the New Deal era Rather than extending the reforms of the 1930s many expressions of postwar liberal thought recast organizational politics as enfeebling alienating or tyrannical Land of Tomorrow examines the ideas and cultural sensibilities that caused this radical shift in the tenor of American liberalism To account for these changes in American liberal sentiment Benjamin Mangrum looks to some of the most influential writers critics and intellectuals of the postwar decades including Ralph Ellison Vladimir Nabokov Lionel

Trilling Flannery O Connor and Saul Bellow as well as the American reception of Friedrich Nietzsche Sigmund Freud Franz Kafka and many other European thinkers By revising established accounts of this body of cultural work Mangrum charts the legitimization of new political sensibilities within the nation s intellectual life These sensibilities opposed a social democratic order and unleashed a new kind of liberalism one which centered on ideas about authenticity alienation self management psychological templates for societal problems and private judgments of value This confluence of literary intellectual and political history gives us a window onto the basic assumptions and key conceptual terrain of liberal thought after 1945 *Land of Tomorrow* thus offers a provocative cultural prehistory of political thinking s forms that remain with us today **Ancient**

**Greeks on the Human Condition** Matthew Sims,2021-08-03 This book examines the writings of four ancient Greeks Homer Thucydides Euripides and Aristophanes Each of these four individuals represents a different approach toward the human condition ranging from the heroic and tragic to the comic and absurd This book focuses on how the human condition can best be understood within the framework of these four perspectives by examining the major contributions of these Greek writers whether in the form of epic Homer s Iliad history Thucydides History of the Peloponnesian War or drama the plays of Euripides and Aristophanes These various perceptions of Greek thought illuminate our understanding of what it means to be fully human By focusing on the concepts of the heroic tragic comic and absurd we can see how these ancient Greek authors still provide key insights for us today as they clarify those timeless features that define the human condition **Land,**

**Power, and Economics on the Frontier of Upper Canada** John Clarke,2001 *Land Power and Economics on the Frontier of Upper Canada* examines Ontario s formative years focusing on Essex County in Ontario from 1788 to 1850 Upper Canadian attitudes to land and society are shown to have been built on contemporary visions of the cosmos John Clarke examines the actions of individuals from the perspective of the political culture and its manifestations doing so within the constraints of geography and the cultural baggage of the settlers Placing human action in the context of economics and laissez faire capitalism Clarke shows how almost unbridled acquisitiveness and its concomitant land speculation could promote or hinder development *The Prodigious Muse* Virginia Cox,2011-08-17 In her award winning critically acclaimed *Women s Writing in Italy 1400 1650* Virginia Cox chronicles the history of women writers in early modern Italy who they were what they wrote where they fit in society and how their status changed during this period In this book Cox examines more closely one particular moment in this history in many ways the most remarkable for the richness and range of women s literary output A widespread critical notion sees Italian women s writing as a phenomenon specific to the peculiar literary environment of the mid sixteenth century and most scholars assume that a reactionary movement such as the Counter Reformation was unlikely to spur its development Cox argues otherwise showing that women s writing flourished in the period following 1560 reaching beyond the customary feminine genres of lyric poetry and letters to experiment with pastoral drama chivalric romance tragedy and epic There were few widely practiced genres in this eclectic phase of Italian literature to which women did not

turn their hand Organized by genre and including translations of all excerpts from primary texts this comprehensive and engaging volume provides students and scholars with an invaluable resource as interest in these exceptional writers grows In addition to familiar secular works by authors such as Isabella Andreini Moderata Fonte and Lucrezia Marinella Cox also discusses important writings that have largely escaped critical interest including Fonte s and Marinella s vivid religious narratives an unfinished Amazonian epic by Maddalena Salvetti and the startlingly fresh autobiographical lyrics of Francesca Turina Bufalini Juxtaposing religious and secular writings by women and tracing their relationship to the male authored literature of the period often surprisingly affirmative in its attitudes toward women Cox reveals a new and provocative vision of the Italian Counter Reformation as a period far less uniformly repressive of women than is commonly assumed Praise for Women s Writing in Italy 1400 1650 Exhaustive and insightful This is an amazing book a major achievement in the field of women s studies Renaissance Quarterly This is a definitive study and will surely remain so for many years to come Choice Virginia Cox has written a magisterial study of the major trends in women s writing in Renaissance and Counter Reformation Italy This is indeed an impressive volume and one which deserves to be read and studied It will change the way we think about women s writing in early modern Italy Modern Language Review
