Irrigation Systems in the Philippines Mona Liza F. Delos Reyes, 2017-07-12 The book presents documentary evidence of
the insufficiency of rehabilitation works to close the gap between the irrigation service and actual area irrigated of publicly
funded national irrigation systems in the Philippines It outlines a methodology for formulating a modernisation plan for
national irrigation systems with focus on the mostly ungauged medium to small canal irrigation systems The proposed
methodology adaptively modified some known modernisation concepts and techniques and integrated them in a more holistic
framework in the context of changing weather patterns and river flow regimes It includes in depth review of rehabilitation
works system diagnosis revalidation of design assumptions on percolation and water supply characterisation of system
management irrigation service and demand and drawing up of options and a vision for the modernised irrigation systems
Central to the proposed modernisation strategy is the logical coherence among the design of physical structures system
operation and water supply so that improvements of irrigation service are possible The book discusses the development of
the proposed methodology and demonstrates its utility in two case study irrigation systems Announcement University of
