**Keraban Le Têtu** Jules Verne, 2020-09-28      **Kéraban le Têtu** Jules Verne, 1883      *The Begum's Millions* Jules Verne, 2014-06-19

Verne's first cautionary tale about the dangers of science first modern and corrected English translation. When two European scientists unexpectedly inherit an Indian rajah's fortune, each builds an experimental city of his dreams in the wilds of the American Northwest. France Ville is a harmonious urban community devoted to health and hygiene, the specialty of its French founder Dr François Sarrasin. Stahlstadt or City of Steel is a fortress-like factory town devoted to the manufacture of high-tech weapons of war. Its German creator, the fanatically pro-Aryan Herr Schultze, is Verne's first truly evil scientist. In his quest for world domination and racial supremacy, Schultze decides to showcase his deadly wares by destroying France Ville and all its inhabitants. Both prescient and cautionary, *The Begum's Millions* is a masterpiece of scientific and political speculation and constitutes one of the earliest technological utopia/dystopias in Western literature. This Wesleyan edition features notes, appendices, and a critical introduction, as well as all the illustrations from the original French edition.

**Revue historique, littéraire et archéologique de l'Anjou**, 1882      *Styles of Thinking* Hub Zwart, 2021-06-30

The way we experience, investigate, and interact with reality changes drastically in the course of history. Do such changes occur gradually, or can we pinpoint radical turns besides periods of relative stability? Building on Oswald Spengler, we zoom in on three styles in particular, namely Apollonian, Magian, and Faustian thinking, guided by grounding ideas which can be summarised as follows: Act in accordance with nature; Prepare yourself for the imminent dawn; and Existence equals will to power. Finally, we reach the present. How to characterise the new era we entered around the year 2000?

*Around the World in Eighty Days* Jules Verne, 2007-05-01

After making an audacious wager, the wealthy and eccentric Phileas Fogg attempts a seemingly impossible feat: to circumnavigate the globe in eighty days. Upon making a bet with his colleagues at the Reform Club, the otherwise mechanically predictable Phileas Fogg sets off on a race to travel around the world in no more than eighty days. With 20,000 on the line, every hour is crucial. Accompanied by his emotional French manservant Passepartout, Fogg travels east from London, making stops in Suez, Bombay, Hong Kong, San Francisco, and New York, traveling by rail, steamship, elephant, sailboat, and sledge. The two are followed all the while by Detective Fix of the London Police, who is convinced that Fogg is the man suspected in a robbery of the Bank of England that occurred shortly before the start of this curious journey. The wild adventures of Phileas Fogg and Passepartout as they race across continents and oceans have entertained readers since the book's first publication in 1873.
