The leitmotif of the book is how engaging pedagogies could be utilised in the classroom to enhance self-directed learning, a sine qua non to future-proof South Africa's science and technological advancement. This is a book written by scholars for scholars. Its target audience includes academics and researchers in the field of science education and scholars engaged with innovative teaching pedagogies, particularly approaches that would enhance the achievement of learners in disadvantaged contexts. The chapters in the book, although eclectic in approach, all contribute to the central theme of the book.
