ARIA Michael R. Hicks,2024-08-20 Aria and Sebastian are wildly different in every way but the one that truly matters their love for one another But their newfound happiness is about to be torn apart When Sebastian pulled into the parking lot of the apartment complex where he hoped to start a new life after six years trapped in an emotional hell all he wanted was to live out his days in quiet solitude That went out the window when he came face to face with Aria a leather clad goth transgender woman who towered over him and whose dark brown eyes burned with the anger that had been her constant companion since childhood But the flames of that anger were doused the instant Sebastian told her You re beautiful No one had ever spoken those words to Aria Considered a freak by most people she had few friends and intimidated everyone she met Except Sebastian Neither of them wanted companionship or expected to ever find happiness And yet as the unlikelyst of pairs who shared common interests and deep emotional and physical scars they did At least until the nightmare of a past they unknowingly shared caught up with them

Motorbike People Will Rollason,2019-12-03 In *Motorbike People* Power and Politics on Rwandan Streets Will Rollason examines the relationship between power and culture Rollason looks at what social scientists gain and lose by abandoning the assumption that power is a universal feature of human social life Through an ethnographic account of the lives and livelihoods of motorcycle taxi drivers in Kigali Rwanda Rollason depicts how forms of personhood can sit uneasily with conventional accounts of power relationships From the motorcyclists everyday dealings with the police and each another to the regulation of their businesses at large and the Rwandan constitution Rollason depicts the need for varied concepts of power By allowing concepts of power to proliferate the social sciences lose the political capacity to engage in questions of justice and make common cause with the oppressed but gain the ability to rethink what it means to act politically and meet the challenges of a swiftly changing world

This work is recommended for students and scholars of the social sciences **Ruling the Root** Milton L.

Mueller,2009-01-23 In *Ruling the Root* Milton Mueller uses the theoretical framework of institutional economics to analyze the global policy and governance problems created by the assignment of Internet domain names and addresses The root is the top of the domain name hierarchy and the Internet address space It is the only point of centralized control in what is otherwise a distributed and voluntaristic network of networks Both domain names and IP numbers are valuable resources and their assignment on a coordinated basis is essential to the technical operation of the Internet Mueller explains how control of the root is being leveraged to control the Internet itself in such key areas as trademark and copyright protection surveillance of users content regulation and regulation of the domain name supply industry Control of the root originally resided in an informally organized technical elite comprised mostly of American computer scientists As the Internet became commercialized and domain name registration became a profitable business a six year struggle over property rights and the control of the root broke out among Internet technologists business and intellectual property interests international organizations national governments and advocates of individual rights By the late 1990s it was apparent that only a new international institution could resolve conflicts among the factions in the domain name wars Mueller recounts the fascinating process that led to the formation of a new international regime around ICANN the Internet Corporation for Assigned Names and Numbers In the process he shows how the vaunted freedom and openness of the Internet is being diminished by the institutionalization of the root Transport and Mobility Futures in Urban Africa Ransford A. Acheampong, Karen
