Entropy Vector Connecting Science And Business:

Entropy Vector, The: Connecting Science And Business Robert D Handscombe, Eann A Patterson, 2004-04-16 How do managers and entrepreneurs evaluate risk encourage creativity or manage change Might a better grasp of science help The authors of this book suggest that there is real value in trying to connect science to business and that science is far too important just to be left to the scientists All of science is too large a prospect so the authors limit themselves to looking at disorder We must all learn to manage and control change and there is plenty of social technical and business change going on The authors suggest that a clearer understanding of entropy and the choices it presents will assist in that management of change or as they put it to manage disorder one needs to control the entropy vector This book is for scientists and engineers aspiring to business success and for business people interested in new approaches **The Entropy Vector** Robert D. Handscombe, Eann A. Patterson, 2004 The authors suggest that a clearer understanding of entropy and the choices it presents will assist in management of change or as they put it to manage disorder one needs to control the entropy vector

Handbook of Qualitative Research Techniques and Analysis in Entrepreneurship Helle Neergaard, Claire M. Leitch, 2015-10-30 One of the most challenging tasks in the research design process is choosing the most appropriate data collection and analysis technique This Handbook provides a detailed introduction to five qualitative data collection and analysis techniques pertinent to exploring entrepreneurial phenomena Techniques for collecting and analysing data are rarely addressed in detail in published articles In addition the constant development of new tools and refinement of existing ones has meant that researchers often face a confusing range from which to choose The experienced and expert group of contributors to this book provide detailed practical accounts of how to conduct research employing focus groups critical incident technique repertory grids metaphors the constant comparative method and grounded theory This Handbook will become the starting point for any research project Scholars new to entrepreneurship and doctoral students as well as established academics keen to extend their research scope will find this book an invaluable and timely resource *A School Built on Ethos* James Handscombe, 2021-03-30 In *A School Built on Ethos* Ideas assemblies and hard won wisdom James Handscombe explores how schooling is more than gaining qualifications how learning is more than exams and how academic success comes more readily to those who have grasped this idea Harris Westminster Sixth Form has had enormous success in providing an academic education for students of all socio economic backgrounds This success is grounded in the development of a scholarly ethos that guides students and staff into successful habits driven by a clear vision for the community and communicated through everything that the school says and does In this book founding principal James Handscombe takes readers through the school's development and illustrates its journey by sharing a selection of the assemblies that have underpinned and elucidated its ethos In doing so he offers guidance on how such a staple of school life can be used to shape a community and shares transferable lessons on how assemblies can be planned and delivered

effectively Furthermore James discusses the challenges the school faced during its creation and offers an improved understanding of how academic and scholarly learning can be delivered and developed in a school whether it be newly formed or already established He also asks the fundamental question of how schools can encourage and enable disadvantaged young people to aspire to and engage in academic enquiry Suitable for both established and aspiring school leaders especially those who are thinking about the kind of school they would like to run and how they can shape it

Management, Valuation, and Risk for Human Capital and Human Assets M.
