American Icon Bryce G. Hoffman, 2013-02-05 The inside story of the epic turnaround of Ford Motor Company under the leadership of CEO Alan Mulally At the end of 2008 Ford Motor Company was just months away from running out of cash With the auto industry careening toward ruin Congress offered all three Detroit automakers a bailout General Motors and Chrysler grabbed the taxpayer lifeline but Ford decided to save itself Under the leadership of charismatic CEO Alan Mulally Ford had already put together a bold plan to unify its divided global operations transform its lackluster product lineup and overcome a dysfunctional culture of infighting backstabbing and excuses It was an extraordinary risk but it was the only way the Ford family America's last great industrial dynasty could hold on to their company Mulally and his team pulled off one of the greatest comebacks in business history As the rest of Detroit collapsed Ford went from the brink of bankruptcy to being the most profitable automaker in the world American Icon is the compelling behind the scenes account of that epic turnaround In one of the great management narratives of our time Hoffman puts the reader inside the boardroom as Mulally uses his celebrated Business Plan Review meetings to drive change and force Ford to deal with the painful realities of the American auto industry Hoffman was granted unprecedented access to Ford's top executives and top secret company documents He spent countless hours with Alan Mulally Bill Ford the Ford family former executives labor leaders and company directors In the bestselling tradition of Too Big to Fail and The Big Short American Icon is narrative nonfiction at its vivid and colorful best

Globalization from the Bottom Up A. Coskun Samli, 2008-12-05 The net profit of Exxon for the year 2005 was reported to be almost 8 billion which reflected about 40 percent growth in its production within a year As production of fuel arms medical services and financial services industries among others reach unbelievable levels by definition most consumers get poorer because they have less money left for other essentials for their lives such as food education medical needs and housing Adding insult to injury of the 100 largest budgets in the world 52 belong to private corporations Needless to say such accumulation of economic power and such mind boggling profit pictures

do not encourage any movement on the part of these powerhouse companies to reach out and do something about the troubled world within which they have amassed such economic and indeed in rectly political power This is a questionable view of the world I have to get more power before others do it and I get it at the expense of others This is what this author coins the GREED FACTOR As has been said power corrupts and absolute power corrupts absolutely The greed factor unfortunately is at the threshold of solute power that corrupts absolutely Unchecked and unguided continuity of this orientation is bound to bring disaster to this very fragile planet called the earth We must establish a point of view that if the world we live in does better there will be more for everyone In other words everyonewill be better off economically

**USA in Decline** David J. Phillips, 2008-12 The US and its citizens are addicted to debt much as a drug addict is hooked on heroin Unless the US achieves rehabilitation this failing alone will ensure that the USA will continue to decline relative to many other countries Liberals are now firmly in control in the USA In this political climate there is no indication that our debt will not continue to increase dramatically The modus operandi is to give a short term fix to all problems by dramatically increasing debt The present financial crisis itself caused by excessive debt is being fixed by even more debt The burden for the few who pay taxes will become increasingly onerous and increasingly unacceptable for future generations The best and the brightest will turn away from the USA increasing the US relative rate of decline Much that has been achieved in the USA since the end of the Second World War has been achieved by people not born in the USA In future the USA increasingly will not be the destination of choice for people with the most to offer Instead it is the destination for illegal immigrants at the other end of the social scale The USA is considered ugly by the rest of the world because it makes no effort to control its gluttony In the USA 25% of the world s energy is consumed by 5% of the world population The USA also leads the world in obesity and in debt The USA does not pay for its insatiable consumption Despite its great

opportunities the USA has a high percentage of free loaders who pay little or no income taxes They have become home owners through debt that they have not worked and saved to afford through policies of US Liberal government The ensuing tsunami is now engulfing the less fortunate people throughout the world who are genuinely poor and are now having to suffer the consequences of our worthless paper debt instruments while the USA takes on huge new debt to continue to feed its addiction instead of facing up to the reality of living within its means     **Automobile Magazine** ,2008     **Montenegro**
