The senders and switches associated with the function warning system are connected to various wiring looms which incorporate the signal wires to the electronic instrument panel.

The wiring looms concerned are identified in Figure 3.

Three large multipin connectors, Bulkhead Connectors 1, 2 and 3 are located under the rear end of the front hood panel and link the main wiring harnesses together. These connectors are convenient points at which to conduct continuity testing to locate wiring faults and are identified in Figure 4.
