Halliday And Ruqaiya Hasan Cohesion In English:

Cohesion in English M.A.K. Halliday, Ruqaiya Hasan, 2014-01-14 Cohesion in English is concerned with a relatively neglected part of the linguistic system its resources for text construction the range of meanings that are specifically associated with relating what is being spoken or written to its semantic environment A principal component of these resources is cohesion This book studies the cohesion that arises from semantic relations between sentences Reference from one to the other repetition of word meanings the conjunctive force of but so then and the like are considered Further it describes a method for analysing and coding sentences which is applied to specimen texts *Cohesion in English* Michael Alexander Kirkwood Halliday, 1976

Building Coherence and Cohesion María Teresa Taboada, 2004-01-01 This book examines the resources that speakers employ when building conversations These resources contribute to overall coherence and cohesion which speakers create and maintain interactively as they build on each other's contributions The study is cross linguistic drawing on parallel corpora of task oriented dialogues between dyads of native speakers of English and Spanish The framework of the investigation is the analysis of speech genres and their staging the analysis shows that each stage in the dialogues exhibits different thematic rhetorical and cohesive relations The main contributions of the book are a corpus based characterization of a spoken genre task oriented dialogue the compilation of a body of analysis tools for generic analysis application of English based analyses to Spanish and comparison between the two languages and a study of the characteristics of each generic stage in task oriented dialogue

GECCo - German-English Contrasts in Cohesion Kerstin Kunz, Ekaterina Lapshinova-Koltunski, José Manuel Martínez Martínez, Katrin Menzel, Erich Steiner, 2021-10-25 In contrastive linguistics of

English and German there is a tradition of accounting for contrasts with respect to grammar and to a lesser extent for lexis and phonetics Moving on to discourse and text there is a sizeable body of literature on cohesive patterns in English and German respectively but very little in terms of a comparison The latter though is of particular interest for language learners translators and of course linguists and researchers in language technology This book attempts to close this gap based on a number of years of corpus based study into variation and cohesion in the two languages While there is an overall focus on language contrasts it also investigates variation between different registers language internally and between written and spoken mode in particular For each of the five major types of cohesion co reference substitution ellipsis conjunctive relations and lexical cohesion overviews are given of contrasts in the system and of contrastive frequencies in texts Results and methods presented in this book are thus relevant for language teaching translation language technology and corpus based work on English and German generally

The Oxford Handbook of English Grammar Bas Aarts, Jill Bowie, Gergana Popova, 2020 This handbook provides an authoritative critical survey of current research and knowledge in the grammar of the English language The volume's expert contributors explore a range of core topics in English grammar covering a range of theoretical approaches and including the relationship between core grammar and other areas of language

Johannine Portrayal of Jesus Yan Ma, 2024-12-02 This book introduces a new methodological framework based on the theory of Systemic Functional Linguistics which can examine the linguistic features of the New Testament text By applying a two step discourse analysis model that includes a functional semantic analysis and a rhetorical relational analysis this book argues that the twenty eight occurrences of I am in Jesus's utterances throughout the Gospel of John reinforce John's portrayal of Jesus's divinity In the light of John's construing of Jesus's divinity this new analysis of the Johannine I am phrases demonstrates how Johannine Christology is expressed through the narrative of John's Gospel with various textual characteristics

Genre, Frames and Writing in Research Settings Brian Paltridge, 1997-01-01 This book presents a perspective on genre based on what it is that leads users of a language to recognise a communicative event as an instance of a particular genre Key notions in this perspective are those of prototype inheritance and intertextuality that is the extent to which a text is typical of the particular genre the qualities or properties that are inherited from other instances of the communicative event and the ways in which a text is influenced by other texts of a similar kind The texts which form the basis of this discussion are drawn from experimental research reporting in English Contents 1 Introduction 2 Approaches to genre 3 Genre and frames 4 A sample analysis Writing up research 5 Summary and conclusions

Language Typology Alice Caffarel, J. R. Martin, Christian M. I. M. Matthiessen, 2004 This book is intended as a systemic functional contribution to language typology both for those who would like to understand and describe particular languages against the background of generalizations about a wide range of languages and also for those who would like to develop typological accounts that are based on and embody descriptions of the systems of particular languages rather than isolated constructions The book is a unique contribution in at least two respects On the one hand it is the first book based on systemic functional theory that is specifically concerned with language typology On the other hand the book combines the particular with the general in the description of languages it presents comparable sketches of particular languages while at the same time identifying generalizations based on the languages described here as well as on other languages The volume explores eight languages covering seven language families French German Pitjantjatjara Tagalog Telugu Vietnamese Chinese and Japanese

Creation and Christ Angela Costley, 2020-11-09 The Epistle to the Hebrews is usually associated with its theology of Christ the High Priest However the term high priest is not so common in the first four chapters of Hebrews occurring only four times with a further reference to sacrifice in 1:3 Rather than emphasising the priestly or sacrificial activity of Christ these opening sections contain a number of references to creation 1:2, 3:10, 12:2, 5:9, 10:3, 1:6, 4:3, 4:4 and 4:9, 10 In this volume Angela Costley uses discourse analysis to explore the importance of the topic of creation to the discourse of the Epistle to the Hebrews uncovering a close link between creation and salvation She highlights the interaction of the topic of creation with the topic of salvation in the discourse to uncover a depiction of Christ as the creator who descends to take on human flesh God who becomes human in order to lead humanity heavenward

Social Semiotics Thomas Hestbaek Andersen, Morten Boeriis, Eva

Maagerø, Elise Seip Tonnessen, 2015-03-27 M A K Halliday's work has been hugely influential in linguistics and beyond since the 1960s. This is a collection of interviews with key figures in the generation of social semioticians who have taken Halliday's concept of social semiotics and developed it further in various directions making their own original contributions to theory and practice. This book highlights their main lines of thought and considers how they relate to both the original concept of social semiotics and to each other. Key themes include Linguistic studies, multilinguality and evolution of language, Text, discourse and classroom studies, Digital texts, computer communication and science teaching, Multimodal text and discourse analysis, Education and literacy, Media work and visual and audio modes, Critical Discourse Analysis. Featuring interviews with leading figures from linguistics, education and communication studies, a framing introduction and concluding chapter summing up commonalities and differences, connections and conflicts and key themes, this is essential reading for any scholar or student working in the area of social semiotics and systemic functional linguistics. Additional video resources are available on the Routledge website. Featuring Christian M I M Matthiessen, Theo Van Leeuwen, James R Martin, Jay Lemke, Gunther Kress.

Corpus-based Approaches to Register Variation Elena Seoane, Douglas Biber, 2021-12-15 As the first collective volume to focus exclusively on corpus-based approaches to register variation, this book provides an exhaustive account of the range and depth of possibilities that the domain of register variation in English has to offer. It illustrates register variation analysis in different theoretical frameworks such as Probabilistic Grammar, Systemic Functional Linguistics and Information Theory and proposes a new framework within the Text Linguistic Approach, the continuous situational analytical framework. Several of the contributions apply Multi-Dimensional Analysis to corpus data in order to unveil register dissimilarities while others rely on logistic regression models and periodization techniques based on Kullback-Leibler divergence. The volume includes both inter-register and intra-register variation analysis of a wide spectrum of varieties, speakers and periods: British and American English, learner varieties, L2 varieties and also contains diachronic studies covering early and late Modern English. This broad scope should be a source of inspiration for anyone interested in historical and ongoing register variation in a vast range of varieties of English worldwide.

New Testament Theology and the Greek Language Stanley E. Porter, 2022-10-20 In this book Stanley E. Porter offers a unique language-based critique of New Testament theology by comparing it to the development of language study from the Enlightenment to the present. Tracing the histories of two disciplines that are rarely considered together, Porter shows how the study of New Testament theology has followed outmoded conceptual models from previous eras of intellectual discussion. He reconceptualizes the study of New Testament theology via methods that are based upon the categories of modern linguistics and demonstrates how they have already been applied to New Testament Greek studies. Porter also develops a workable linguistic model that can be applied to other areas of New Testament research. Opening New Testament Greek linguistics to a wider audience, his volume offers numerous examples of the productivity of this linguistic model, especially in his chapter devoted to the case study of the Son of Man.

Finding the Synoptic Gospels' Construction Process Hojoon Ahn, 2024-06-11 This study critically examines the current state of Synoptic Gospel studies particularly many scholars reliance on the Literary Dependence Hypothesis and endeavors to advance a more balanced approach The author attempts to deduce the Synoptic Gospels construction process by meticulously examining the Eucharist and its co text within these Gospels by employing a model of Mode Register Analysis based on Systemic Functional Linguistics This study uncovers the probability that each designated text in the Synoptic Gospels was constructed based on oral Gospel tradition s under the influence of each constructor s identity Systemic Functional Insights on Language and Linguistics Christian M.I.M. Matthiessen, Bo Wang, Yuanyi Ma, Isaac N. Mwinlaaru, 2022-04-05 This book features a collection of 10 interviews with Christian M I M Matthiessen who is a key figure in Systemic Functional Linguistics SFL and has collaborated closely with M A K Halliday since the 1980s As noted by Professor Chang Chenguang Editor of the M A K Halliday Library Functional Linguistics Series this collection of interviews serves as an important reference for scholars and students of SFL It provides a unique perspective on the theoretical development and future outlooks of SFL as well as Matthiessen s own interpretations of the theory It also enriches our understanding of SFL and is a very useful addition to the series Written in an engaging dialogic format the book paints a vivid picture of SFL thriving among the landscape of general linguistics and of SFL as an important tool now being applied in various areas Pragmatics of Discourse Klaus P. Schneider, Anne Barron, 2014-06-18 Discourse is language as it occurs in any form or context beyond the speech act It may be written or spoken monological or dialogical but there is always a communicative aim or purpose The present volume provides systematic orientation in the vast field of studying discourse from a pragmatic perspective It first gives an overview of a range of approaches developed for the analysis of discourse including among others conversation analysis systemic functional analysis genre analysis critical discourse analysis corpus driven approaches and multimodal analysis The focus is furthermore on functional units in discourse such as discourse markers moves speech act sequences discourse phases and silence The final section of the volume examines discourse types and domains providing a taxonomy of discourse types and focusing on a range of discourse domains e g classroom discourse medical discourse legal discourse electronic discourse Each article surveys the current state of the art of the respective topic area while also presenting new research findings

The Theory and Practice of Discourse Parsing and Summarization Daniel Marcu, 2000 Most discourse researchers assume that full semantic understanding is necessary to derive the discourse structure of texts This book documents an attempt to construct and use automatic and non semantic computational structures for text summarization
