Congress. House. Committee on

Appropriations. Subcommittee on Energy and Water Development, 2015      *Guns across America* Robert Spitzer, 2015-04-13

In vast swathes of America the sacredness of the Second Amendment has become a political third rail never to be questioned. Gun rights supporters wear tri-cornered hats, wave the stars and stripes and ask what would have happened if the revolutionaries had been unarmed when the British were coming. They have had great success in conflating unfettered gun ownership with the Founding Fathers, the Constitution and all things American, even in an era of repeated mass shootings. Yet the all too familiar narrative of America's gun past, echoed in the Supreme Court's *Heller* gun rights decision, is not only mythologized but historically wrong. As Robert J. Spitzer demonstrates in *Guns across America*, gun ownership is as old as the nation but so is gun regulation. Drawing on a vast new dataset of early gun laws reflecting every imaginable type of regulation, Spitzer reveals that firearms were actually more strictly regulated in the country's first three centuries than in recent years. The first gun grabbers were not 1960s Chablis drinking liberals but seventeenth-century rum guzzling pioneers and their legacy continued through strict gun regulations in the 1920s and beyond. Spitzer examines interpretations of the Second Amendment, the assault weapons controversy, modern stand your ground laws and the so-called right of rebellion to show that they play out in America's contemporary political landscape in ways that bear little resemblance to our imagined past. And as gun rights proponents seek to roll back gun laws and press as many guns into as many hands as possible, warning that gun rights are endangered, they sidestep the central question: are stricter gun laws incompatible with robust gun rights? Spitzer answers this question by examining New York State's tough gun laws, where his political analysis is complemented by his own quest for a concealed carry handgun permit and construction of a legal AR 15 assault weapon. Not only can gun rights and rules coexist but they have throughout American history. *Guns across America* reveals the long hidden truth that gun regulations are in fact as American as apple pie.

**The Politics of Gun Control** Robert J. Spitzer, 2020-10-13

The new edition of this classic text covers the latest developments in American gun policy, including the most recent shooting incidents that persist in plaguing the American landscape. Continuing a multi-decade trend, crime generally remains low throughout the US, but mass shootings have increased in both number and lethality, stoking greater support for gun laws among the public. Two seismic political events are highlighted in the eighth edition. The first is the ascendance of the gun safety movement, culminating in numerous electoral victories for gun law supporters in 2018 congressional and state races around the country. This outcome, which contributed to the Democrats' capture of the House of Representatives for the first time since 2008, also demonstrates that support for stronger gun laws could be a winning issue for proponents in 2020 and beyond. The second political development featured is the financial, political and legal crises that beset the nation's oldest and most powerful gun group, the National Rifle Association. These crises are sufficiently grave that they may pose an existential threat to the organization's traditional dominance in the realm of gun politics. Author Robert J. Spitzer has long been a recognized authority on gun control and gun policy. His even-handed treatment of the issue, as both a member of the NRA and the Brady

Center continues to compel national and international interest including appearances on major media such as the PBS NewsHour The eighth edition of The Politics of Gun Control provides the reader with up to date data and coverage of gun ownership gun deaths school shootings border patrols and new topics including universal background checks limits on large capacity ammunition magazines and red flag laws New to the Eighth Edition Covers the ascendance of the Second Amendment sanctuary and gun safety movements resulting from heinous shootings in Las Vegas and Parkland Florida Tracks the financial political and legal crises that threaten the dominance of the National Rifle Association Examines new policy measures including universal background checks limits on large capacity ammunition magazines the bump stock controversy and red flag laws among others *Lethal Logic* Dennis A. Henigan, 2009-06-30 Guns don't kill people people kill people When guns are outlawed only outlaws will have guns An armed society is a polite society Who hasn't heard these engaging assertions time and time again Burned into the national consciousness by years of targeted disciplined messaging by the National Rifle Association and others they are just a few of the bumper sticker slogans that have defined the gun control debate in America Long ridiculed by gun control advocates they are the first words that come to mind for most Americans when the gun issue is discussed This is the first book both to acknowledge the profound and deadly impact of the gun lobby's bumper sticker logic on the gun control debate and to systematically expose the misguided thinking at the core of the pro gun slogans Indeed the author contends that the gun lobby's remarkable success in blocking passage of lifesaving gun laws is the result in large part of its relentless and effective use of these simple and resonant messages Their persuasive power has been a largely ignored influence on the current politics of gun control in which the gun lobby wields unprecedented power in the Republican Party while many Democratic Party leaders see the policy benefits of stronger gun laws as not worth the political risk of standing up to the NRA The book contends that the current political stalemate over guns will never be broken until the pro gun slogans are exposed as the cleverly disguised fallacies that they are **Boys' Life**, 1984-09 Boys Life is the official youth magazine for the Boy Scouts of America Published since 1911 it contains a proven mix of news nature sports history fiction science comics and Scouting Department of Defense appropriations for fiscal year 1979 United States.
