Happy City Transforming Our Lives Through Urban Design:

Happy City: Transforming Our Lives Through Urban Design Charles Montgomery, 2013-11-12 A globe trotting eye opening exploration of how cities can and do make us happier people Charles Montgomery's *Happy City* will revolutionize the way we think about urban life After decades of unchecked sprawl more people than ever are moving back to the city Dense urban living has been prescribed as a panacea for the environmental and resource crises of our time But is it better or worse for our happiness Are subways sidewalks and tower dwelling an improvement on the car dependence of sprawl The award winning journalist Charles Montgomery finds answers to such questions at the intersection between urban design and the emerging science of happiness and during an exhilarating journey through some of the world's most dynamic cities He meets the visionary mayor who introduced a sexy lipstick red bus to ease status anxiety in Bogot the architect who brought the lessons of medieval Tuscan hill towns to modern day New York City the activist who turned Paris's urban freeways into beaches and an army of American suburbanites who have transformed their lives by hacking the design of their streets and neighborhoods Full of rich historical detail and new insights from psychologists and Montgomery's own urban experiments *Happy City* is an essential tool for understanding and improving our own communities The message is as surprising as it is hopeful by retrofitting our cities for happiness we can tackle the urgent challenges of our age The happy city the green city and the low carbon city are the same place and we can all help build it *Happy City* Charles Montgomery, 2013-11-07

Happy City is the story of how the solutions to this century's problems from climate change to overpopulation lie in unlocking the secrets to great city living This is going to be the century of the city But what actually makes a good city Why really are some cities a joy to live in As writer and journalist Charles Montgomery reveals it's not how much money your neighbours earn or how spectacular the views from your windows are or even how pleasant the climate is that makes the most difference Journeying to dozens of cities from Atlanta to Bogot to Vancouver he talks to the new champions of the happy city to discover the progressive movements already transforming people's lives He meets the visionary Colombian mayor who turned some of the world's most dangerous roads into an urban cycling haven the Danish architect who brought the lessons of medieval Tuscan towns to modern day Copenhagen the New York City transport commissioner who made out of the gridlock of Times Square a place where people could lounge in the sun and the Californian mother with the super commute who completely rethought her idea of the suburban dream for the sake of her son's health These urban trailblazers as well as the many other planners engineers grass roots campaigners and ordinary citizens offer a wealth of surprising lessons for the rest of us From how saying hello to your neighbours is just as important to your sense of trust as contact with close friends and family and how living close to parks makes us smarter kinder and reduces local crime rates to the importance of the magic triangle rule *Happy City* shows that simple changes can make all the difference Charles Montgomery is a journalist and urban experimentalist from Vancouver Canada His writings on urban planning psychology culture and history have appeared in

magazines and journals on three continents He is the author of two previous books and is a member of the BMW Guggenheim Lab team

Happy City Charles Montgomery, 2013 A journalist travels the world and investigates current socioeconomic theories of happiness to discover why most modern cities are designed to make us miserable what we can do to change this and why we have more to learn from poor cities than from prosperous ones
