Educational Psychology Arthur Irving Gates,Arthur Thomas Jersild,Thomas Raymond McConnell,Robert Chester Challman,1942 *Social Studies in the United States* Charles Benjamin Cox,Byron G. Massialas,1967 This book makes two basic assumptions First an accurate picture of the content methods and goals of social studies courses is best obtained by analyzing a representative sample of widely used textbooks Second the most important function of social studies courses is to develop skills of critical inquiry among students The central purpose of this volume has been to assess critically the quality and content of elementary junior high and senior high school social studies instruction in the United States today This volume tries to provide both experienced and prospective teachers creative suggestions on how to use and evaluate existing social studies materials and instructional procedures There are also guidelines for future developments in social studies teaching

Education ,1965 **Nationalism and History Education** Rachel Hutchins,2016-02-26 History education by nature transmits an official version of national identity National identity is not a fixed entity and controversy over history teaching is an essential part of the process of redefining and regenerating the nation France and the United States have in particular experienced demographic and cultural shifts since the 1960s that have resulted in intense debates over national identity This volume examines how each country s national history is represented in primary schools social studies textbooks and curricula and how they handle contemporary issues of ethnicity diversity gender socio economic inequality and patriotism By analyzing each country separately and comparatively it demonstrates how various groups including academics politicians and citizen activists have influenced education and how the process of writing and rewriting history perpetuates a nation Drawing on empirical studies of the United States and France this volume provides insight into broader nationalist processes and instructive principles for similar countries in the modern world **A Guide for the Elementary Social Studies Teacher** Willard Linwood Chase,Martha Tyler John,1978 **Engaging Equity** Leeno Karumanchery,2005-01-01 Contrary to those mainstream efforts that paint racism and social oppression as remnants of a troubled past today s relations of social power

remain intractable as they continue to mediate and discipline the lives of the oppressed Recognizing that racism and other forms of oppression continue to evolve and adapt to our changing times it is crucial that our strategies for resistance are equally dynamic and proactive In this reader Leeno Karumanchery has brought together some of critical theory s most powerful and insurgent voices to explore this vital strand of the anti racist tapestry by asking How do we understand our oppression and how do we frame and manage our resistance in the face of it Engaging Equity is framed as a sociohistoric expose of the Western educational system revealing the banality of oppression in today s schools Developed within a philosophy of hope this book reminds us that real and meaningful change towards social justice can be achieved but only if our politics strategies and resolve are equal to the task

Activities for Elementary School Social Studies James W. Stockard, Jr., Mary Margaret Wogan, 2010-04-09 According to Piaget all higher order thinking skills have their bases in activities involving concrete manipulation and observation The third edition of this highly regarded collection of social studies activities continues to be based on the premise that children learn best through experiences and activities learning by doing It features new activities for each social studies category geography history anthropology sociology economics political science and interdisciplinary Three important new additions to the key elements of the easy to follow activity format make it easier for instructors to meet standards based curriculum requirements A detailed treatment of National Council of Social Studies standards addressed specific multiple intelligences addressed also reinforced by a multiple intelligences section in the back of the book and useful Web site s for group individual research URLs for sites that will expand or enrich the learning experience for the activity By engaging pupils in meaningful worthwhile social studies activities instructors can emphasize the processes of learning rather than the products resulting in a richly rewarding experience for pupils and teacher alike
