Legislative Calendar United States. Congress. House. Committee on Oversight and Government Reform, 2011 *The IMF and the European Debt Crisis* Harold James, 2024-01-05 The book explores the Fund's engagement in Europe in the aftermath of the 2008 global financial crisis and especially after 2010 It explains how why and with what consequences the International Monetary Fund along with the European Central Bank and the European Commission together known as the troika supported adjustment programs in Greece Ireland Portugal and Cyprus as well as helping to monitor Spain's adjustment program and exploring modalities for supporting Italy Additionally it analyzes how the euro area developments interacted with and affected the rest of Europe including not only eastern and southeastern Europe but also the United Kingdom where the political fallout from post financial crisis populism in the form of Brexit from the European Union was in the end the most extreme The IMF's European programs embroiled the Fund in numerous controversies over the exceptionally large lending over whether or not to impose losses on private creditors and over the mix between external financing and internal adjustment undertaken by program countries They also required the IMF to confront longstanding questions about its governance and evenhandedness in the treatment of different segments of its membership The crisis programs with Greece Ireland Portugal and Cyprus all revolved around debt sustainability In the Greek case after an intense internal debate the IMF initially chose a program without debt reduction because it feared that such a program even if ultimately in the interests of Greece the client country would trigger a panic of banks and other creditors and thus generate contagion for the rest of Europe Learning from the Greek case in Ireland and Portugal the IMF pushed for debt reduction to which the government in Ireland but not in Portugal was

sympathetic There was thus no private sector debt reduction in Ireland and Portugal The European programs were caught up in big geopolitical debates about the appropriate role of the Fund in the aftermath of the global financial crisis The book examines the intellectual and policy shifts that took place in the IMF as a result of the controversies about its European programs It concludes with some reflections on how all the programs also produced genuine policy reform and held out the possibility of a return to growth and prosperity

Recall of MPs Great Britain. Parliament. House of Commons. Political and Constitutional Reform Committee, 2012 The Government published a draft Bill on the Recall of MPs with the aim of restoring faith in the political process after the expenses scandal But the restricted form of recall proposed could reduce public confidence in politics by creating expectations that are not fulfilled Under the Government's proposals constituents themselves would not be able to initiate a recall petition Furthermore the circumstances that the Government proposes would trigger a recall petition are so narrow that recall petitions would seldom if ever take place The Committee believes that the new House of Commons Committee on Standards which will include lay members already has the sanctions it needs to deal with MPs who are guilty of misconduct including recommending the ultimate sanction of expulsion from the House of Commons in cases of serious wrongdoing The Committee argues that the option of expulsion must be actively considered and that the House must be prepared to act The Committee recommends that the Government replace the requirement for a single designated location for signing the recall petition with a requirement for multiple locations that people with an existing postal vote should automatically be sent a postal signature sheet in the event of a recall petition that constituents in Northern Ireland should have the same options for signing a recall petition as constituents elsewhere in the UK rather than being restricted to signing by post

Us for Them Austin Fischer, 2024-04-10 Us versus them it's one of the oldest stories ever told and we keep finding new ways to tell it The conservative versus progressive cultural holy war over social justice reconciliation unity and politics is the most recent version of the story and our lives are increasingly defined by it Which side are you on Do you want justice or friendship Diversity or unity Victory or communion But what if this alleged holy war is better understood as an opportunity for a humble and creative collaboration What if conservatives and progressives tell a better story together What if we seek higher ground instead of partisan or middle ground What if God doesn't want to pull us to the right or to the left or to the middle What if God wants to pull us up Us for Them suggests that instead of hunkering down into ideological trench warfare Christians can ascend into the elevation of the kingdom by practicing God's fierce but friendly justice in an unfriendly and unjust world Because Christianity is a faith of justice and friendship not one or the other
