Factors and Malaria Transmission in Mahi Kadana, Gujarat, India , *Globalisation, Employment and Education in Sri Lanka* Angela W. Little, Siri T. Hettige, 2014-05-23 Since the late 1970s Sri Lanka has undergone a socio economic transformation from protectionism towards economic liberalisation and increasing integration into the world economy Through a systematic comparison of these periods of economic change 1956 1977 and 1977 to the present Angela W Little and Siri T Hettige examine the impact of this transformation on education youth employment and equality of opportunity in Sri Lanka The book charts Sri Lanka's shift from a predominantly agricultural economy to one dominated by services and manufacturing a reduction in unemployment rising educational and occupational levels expectations and achievements and a reduction in poverty In turn it reveals a growing role for the private sector and foreign interests in post secondary education and a modest growth in private education at the primary and secondary levels as well as widening social disparities in access to qualifications training and skills The Sri Lankan experience of and engagement with globalisation has been tempered by a long running ethnic conflict that hindered economic and social development and diverted considerable public funds into defence and war Now that the war is won the challenge is how to invest in human resource development and the fulfilment of the expectations of youth from all ethnic and social groups This challenge requires serious policy analysis the generation of more state revenues the reallocation of existing public resources and a political commitment to the winning of a sustainable peace and stability This book makes an important contribution to the broader international literature on the implications of globalisation for education policy and practice and to the interaction of exogenous and endogenous forces for educational change It deals with the tension between the high social demand for education and the growing demand for specialised skills in a changing economy As such it has a wide interdisciplinary appeal across education policy and politics Asian education South Asian society youth policy sociology of education political economy of social change and globalisation Unsettled Legitimacy Steven Bernstein, William D. Coleman, 2010-07-01 Globalization has challenged taken for granted relationships of rule in local regional national and international settings This unsettling of legitimacy raises questions Under what conditions do individuals and communities accept globalized decision making as legitimate And what political practices do individuals and collectivities under globalization use to exercise autonomy To answer these questions the contributors to Unsettled

Legitimacy explore the disruptions and reconfigurations of political authority that accompany globalization Arguing that we live in an era in which political legitimacy at multiple scales of authority is under strain they show that globalization has also created demands for regulation security and the protection of rights and expressions of individual and collective autonomy within and across multiple political and geographic spaces Instead of offering simplistic arguments for or against global governance enhanced democracy or economic integration the contributors provide a sophisticated examination of the complexities of legitimacy and autonomy in a globalizing world
