Hunger Games Literature Guide Secondary Solutions:

Collecting for the Curriculum Amy J. Catalano, 2015-09-28 If you're a librarian charged with collecting curriculum materials and children's literature to support the Common Core State Standards then this book is the only one that offers explicit advice on collection development in curriculum collections for you. While there are many publications on the Common Core for school librarians and K-12 educators, no such literature exists for curriculum librarians at the post-secondary level. This book fills that gap, standing alone as a guide to collection development for curriculum librarians independent of the Common Core State Standards (CCSS). The book provides instruction and guidance to curriculum librarians who acquire and manage collections so you can develop a collection based on best practices. The book begins with a primer on the CCSS and how curriculum librarians can support them. Discussion of the Standards is then woven through chapters arranged by content area that share research-based practices in curriculum development and instruction to guide you in curriculum selection. Material types covered include games, textbooks, children's literature, primary sources, counseling, and nonfiction. Additional chapters cover the management of curriculum collections, testing collections, and instruction and reference, as well as how to support and collect for special needs learners. Current practices in collection development for curriculum materials librarians are also reviewed. The book closes with a discussion of the future of curriculum materials.

Supporting Reading in Grades 6-12 Sybil M. Farwell, Nancy L. Teger, 2012-06-11 This book presents a curricular framework for students grades 6-12 that school librarians and teachers can use collaboratively to enhance reading skill development, promote literature appreciation, and motivate young people to incorporate reading into their lives beyond the required schoolwork. **Supporting Reading Grades 6-12: A Guide** addresses head-on the disturbing trend of declining leisure reading among students and demonstrates how school librarians can contribute to the development of lifelong reading habits, as well as improve students' motivation and test scores. The book provides a comprehensive framework for achieving this: the READS curriculum, which stands for Read as a personal activity, Explore characteristics, history, and awards of creative works, Analyze structure and aesthetic features of creative works, Develop a literary-based product, and Score reading progress. Each of these five components is explained thoroughly, describing how school librarians can encourage students to read as individuals, in groups, and as school communities support classroom teachers' instruction and connect students to today's constantly evolving technologies. Used in combination with an inquiry/information skills model, the READS curriculum enables school librarians to deliver a dynamic, balanced library program that addresses AASL's Standards for the 21st Century Learner. *Resources in Education*, 2001-04. **Imaginative Teaching through Creative Writing** Amy Ash, Michael Dean Clark, Chris Drew, 2021-03-25 Growing out of recent pedagogical developments in creative writing studies and perceived barriers to teaching the subject in secondary education schools, this book creates conversations between secondary and post-secondary teachers aimed at introducing and improving creative writing instruction in teaching curricula for young people.

Challenging assumptions and lore regarding the teaching of creative writing this book examines new and engaging techniques for infusing creative writing into all types of language arts instruction offering inclusive and pedagogically sound alternatives that consider the needs of a diverse range of students With careful attention given to creative writing within current standards based educational systems Imaginative Teaching through Creative Writing confronts and offers solutions to the perceived difficulty of teaching the subject in such environments Divided into two sections section one sees post secondary instructors address pedagogical techniques and concerns such as workshop revision and assessment before section two explores hands on activities and practical approaches to instruction Focusing on an invaluable and underrepresented area of creative writing studies this book begins a much needed conversation about the future of creative writing instruction at all levels and the benefits of collaboration across the secondary post secondary divide
