Dictator's Dreamscape Joseph R. Hartman,2019-04-23 Joseph Hartman focuses on the public works campaign of Cuban president and later dictator Gerardo Machado Political histories often condemn Machado as a US puppet dictator overthrown in a labor revolt and popular revolution in 1933 Architectural histories tend to catalogue his regime s public works as derivatives of US and European models Dictator s Dreamscape reassesses the regime s public works program as a highly

nuanced visual project embedded in centuries old representations of Cuba alongside wider debates on the nature of art and architecture in general especially in regards to globalization and the spread of US style consumerism The cultural production overseen by Machado gives a fresh and greatly broadened perspective on his regime s accomplishments failures and crimes The book addresses the regime s architectural program as a visual and architectonic response to debates over Cuban national identity US imperialism and Machado s own cult of personality
