CAUTION

Never attempt to work on your Jari Mower without first removing the spark plug or wire from spark plug. Never wear loose clothing near the unit when the engine is operating. Before starting the engine, clear the area of adults, children and pets. A sudden gust of wind and/or an unexpected move on somebody's part can change what was a safe situation. Always exercise caution during the operation, handling, parking or storage of your mower. Shutting off and allowing engine to cool is necessary before refueling. Stop engine before attempting to clean any debris from knife assembly.

LUBRICATION (5 Zerks)

Use heavy-duty gun grease every 3 hours of operation. If one grease retainer, such as item #39 used in conjunction with part requiring grease, grease until grease appears at the retainer. If two grease retainers are used, such as with each wheel or dual pulley #59, grease until grease appears at both retainers. It is not necessary to remove fender for greasing. Drive shaft has sealed ball bearings, which do not require greasing.
