

Profit for Assets Only

There is a very simple way to determine if your business is profitable. It's not by looking at the bottom line of your profit and loss statement. It's by looking at the top line of your profit and loss statement. The top line of your profit and loss statement is the total revenue. The bottom line of your profit and loss statement is the total expenses. The difference between the top line and the bottom line is the profit. If the profit is positive, your business is profitable. If the profit is negative, your business is not profitable.
