 field     *Borderlands* Pradeep Damodaran,2017-02-25 For most residents of India s bustling metros and big towns nationality  
 and citizenship are privileges that are often taken for granted The country s periphery however is dotted with sleepy towns  
 and desolate villages whose people simply by having more in common with citizens of neighbouring nations than with their  
 own have to prove their Indian identity every day It is these specks on the country s map that Pradeep Damodaran  
 rediscovers as he travels across India s borders for a little more than a year experiencing life in far flung areas that rarely  
 feature in mainstream conversations In *Borderlands* he recounts his encounters with the war weary fishermen of  
 Dhanushkodi at the southernmost tip of Tamil Nadu who live in fear both of the Indian Coast Guard and the Sri Lankan navy  
 farmers in Hussainiwala a village on Punjab s border with Pakistan who are unwilling to build concrete houses for fear of  
 them being destroyed in the ever looming war Tamil traders of Moreh a town straddling the Manipur Myanmar border who

pay bribes to at least ten different militant organizations so they can safely conduct their business and ex servicemen in Campbell Bay who were resettled there three generations ago and have long been forgotten by the mainland From Minicoy in Lakshadweep to Taki in West Bengal Tawang in Arunachal Pradesh to Raxaul in Bihar Damodaran's compelling narrative reinforces the idea that in India a land of contrasts and contradictions beauty and diversity conflict comes in many forms

**A Million Cars For A Billion People** Gautam Sen, 27-02-15 Can one car transform a nation The Ford Model T did do so a century ago when it replaced the horse brought about a revolution in agriculture became a stimulus to urbanization that eventually changed the landscape of America Though the Maruti 800 the Tata Indica the Hyundai Santro and the Maruti Alto became engines of growth for India these cars neither drove away the cow nor changed the way Indians travelled Tata's Nano was expected to change all that and become the ultimate people's car capturing the imagination of the middle class across nations and cultures In spite of its petite dimensions the Nano was meant to stand tall Yet it did not What caused it to fail and fall from grace despite being lauded as the right product at the right time and the most significant new car since the Ford Model T was introduced 100 years ago But is it really all over or is there still hope for India's little wonder What will the people's cars of tomorrow be like A Million Cars for a Billion People delves into the questions concerns and doubts as well as the many misconceptions and myths that have gathered momentum over the years about India's automotive history and the industry's mission to create a true people's car The very first cars that came to India the early beginnings of the industry the nascent history of the automobile across nations like Germany France US the UK Italy Japan and South Korea is narrated with authority and charm from the viewpoint of the quest for the ultimate people's car The Missing Letters Mohammed Ubaid, Mohan Shobha and I are fast friends Perhaps that is why they have been branded as Fevicol friends To be honest the last four years during our graduation they were more like family to me than friends I am Vineet Sabrawal hailing from a middle class business family in Udupi On the other hand my friend Shobha is a carefree girl from a well to do family who has nothing to worry about Mohan is the more sincere and upright among the three of us He comes from a family struggling to meet their end needs and is seldom wrong between us When he found something fishy about a person on the streets of Udupi I and Shobha had to be a part of his journey We could not have left him alone in his quest to know to investigate this mysterious guy After all we are friends through thick and thin A small suspicion of Mohan's overworked mind has put us all on a path that will eventually change our lives and the lives of everyone around us We were happy that we were serving our country India my first valentine that has suffered from the enemies who are inside her territory like termites and trying everything to devour it The Indian forces are doing all in their hands to protect our beloved motherland and without wearing the uniforms fate has given us a golden chance to serve our nation in some unanticipated circumstances We would not have thought that a small mere hunch of Mohan will put us on the path that would make us most unlikely heroes Not realising what was in store for us ultimately we helped the agencies crack one of the most compelling cases in Indian intelligence in

recent times I feel like quoting my favourite quote from the movie THE IMITATION GAME We have a lot more unlikely heroes now it s not just the guy with the guns but the guy with the brains Thank you Mohan for making us those heroes and Shobha for being there with us through and through Your friend forever Vineet Sabrawal
