The Education Invasion Joy Pullmann, 2017-03-14 Most Americans had no idea what Common Core was in 2013 according to polls But it had been creeping into schools nationwide over the previous three years and children were feeling its effects They cried over math homework so mystifying their parents could not help them even in elementary school They read motley assortments of informational text instead of classic literature They dreaded the high stakes tests in unfamiliar formats that were increasingly controlling their classrooms How did this latest and most sweeping reform of American education come in mostly under the radar Joy Pullmann started tugging on a thread of reports from worried parents and frustrated teachers and it led to a big tangle of history and politics intrigue and arrogance She unwound it to discover how a cabal of private foundation honchos and unelected public officials cooked up a set of rules for what American children must learn in core K 12 classes and how the Obama administration pressured states to adopt them Thus a federalized education scheme took root despite legal prohibitions against federal involvement in curriculum Common Core and its testing regime were touted as an absolute game changer in public education yet the evidence so far suggests that kids are actually learning less under it Why then was such a costly and disruptive agenda imposed on the nation s schools Who benefits And how can citizens regain local self governance in education so their children s minds will be fed a more nourishing intellectual diet and be protected from the experiments of emboldened bureaucrats The Education Invasion offers answers and remedies

Singapore Literature and Culture Angelia Poon, Angus Whitehead, 2017-03-03 Since the nation state sprang into being in 1965 Singapore literature in English has blossomed energetically and yet there have been few books focusing on contextualizing and analyzing Singapore literature despite the increasing international attention garnered by Singaporean writers This volume brings Anglophone Singapore literature to a wider global audience for the first time embedding it more closely within literary developments worldwide Drawing upon postcolonial studies Singapore studies and critical discussions in transnationalism and globalization essays unearth and introduce neglected writers cast new light on established writers and examine texts in relation to their specific Singaporean local historical contexts while also engaging with contemporary issues in Singapore society

Singaporean writers are producing work informed by debates and trends in queer studies feminism multiculturalism and social justice work which urgently calls for scholarly engagement This groundbreaking collection of essays aims to set new directions for further scholarship in this exciting and various body of writing from a place that despite being just a small red dot on the global map has much to say to scholars and students worldwide interested in issues of nationalism diaspora cosmopolitanism neoliberalism immigration urban space as well as literary form and content This book brings Singapore literature and literary criticism into greater global legibility and charts pathways for future developments *ISTFA 2014 A. S. M. International, International Symposium for Testing and Failure Analysis, 2014-11-01* This volume features the latest research and practical data from the premier event for the microelectronics failure analysis community The papers address the symposium's theme Exploring the Many Facets of Failure Analysis The Disorder of Mathematics Education Hauke Straehler-Pohl, Nina Bohlmann, Alexandre Pais, 2016-08-23 Research within a socio political paradigm or turn has been gradually recognized and institutionalized as an important part of mathematics education This book focuses on the neglected problems tensions and contradictions evoked by this process The authors do this by challenging current regimes of truth about mathematics education by identifying how recent technological developments challenge or suspend contemporary conceptions of mathematics education by critiquing the ideological entanglement of mathematics its education and schooling with capitalism by self reflective analyses of researchers impacts on shaping what is and can be perceived as the practice of mathematics education research and by confronting main stream mathematics education with socio political contexts that are usually neglected In this way mathematical rationality becomes contextualized within contemporary society where it reproduces itself through technologies social practices media and other spheres of social life Education for All 2000-2015: Achievements and challenges UNESCO, 2015-04-08 Literaturverz S 414 459 **Literacy as Numbers** **Teacher's Book** Mary Hamilton, Bryan Maddox, Camilla Addey, 2015-03-05 A collaborative series with the University of Cambridge Faculty of Education highlighting leading edge research across Teacher Education International Education Reform and Language Education *Canadian Journal of Physics*, 2015 Sex and Gender Hilary M. Lips, 2020-04-10 Are sex and gender really two different things How malleable is gender identity Do both gender and sex have to be conceptualized as binaries as having two distinct but complementary categories Should we emphasize gender differences or is that the wrong question When should we call a gender difference small Are women really nonaggressive or does that label stem from stereotyping How does subtle or modern sexism work on its targets Scholarship on these and other gender related questions has exploded in recent years Hilary Lips synthesizes that research for students in an accessible and readable way Concepts on sex and gender are presented with the social context in which they were developed As in previous editions Lips takes a multicultural approach discussing the gender experiences of people from a wide range of races cultures socioeconomic statuses and gender and sexual identities She emphasizes empirical research but takes a critical approach to
