Visual Database Systems 4 Yannis Ioannidis, Wolfgang Klas, 2013-03-09 In many of nowadays web based environments for electronic marketing and commerce that present large multimedia product and service catalogues it becomes more and more difficult to provide naive end users such as private consumers or commercial business partners with intuitive user interfaces to access the large multimedia collections describing the presented products and services The same holds for marketing managers and other employees responsible for managing and maintaining the large and constantly changing set of multimedia information chunks and fragments contained in these collections As a consequence many efforts are devoted to improve the quality of the interaction between users and databases Virtual Reality VR techniques are a promising interaction paradigm particularly suited to novice and or occasional users The users are facilitated in the database navigation since the system proposes them an environment that reproduces a real situation and gives the possibility of interacting by manipulating objects that have a direct correspondence with known objects Sys Admin ,1998

assessments and judgments this interpretation of human historical existence also situates human beings with their capacities for freedom and creativity within the ecological web that sustains all life Human beings Kaufman argues have created religious symbolism as a necessary part of their attempt to orient themselves in the world He shows how Christianity as a system of symbols has figured in this effort and he carefully examines the separate elements of the Christian perspective foremost among them God How does the concept of God as an ultimate point of reference enhance our understanding of today's world and how does the symbol Christ qualify this concept The answers Kaufman proposes clarify the changing relevance of the symbolic world of Christianity Firmly embedded in physical and social science and in the tradition of American pragmatism this thorough reconception of a Christian worldview offers insight into the most basic questions confronting humanity today questions of value meaning and self identity
