TEST SEWING

After the machine has been threaded, start sewing in the following sequence:

3. Pass the 3 threads under the foot as shown on the drawing. Lower the presser foot, make a few stitches by turning the flywheel towards you by hand (without material under the foot). Then press on the foot control to make 3 to 4 cm of chain, holding the threads on the left. The machine is now ready to sew.
4. Place a scrap of fabric in front of the lowered presser foot at the position to be stitched then depress the foot control. Do not pull the fabric; guide it gently.

5. When you reach the end of the fabric, do not raise the presser foot but continue sewing at a low speed for about 5 cm beyond the end of the fabric so that the machine produces a chain of thread. Then cut the thread with the thread cutter (see illustration). You are then ready to start the next seam. You can start overlocking from the edge of the fabric just by feeding it into the front of the lowered presser foot.

If the stitches are not formed correctly, adjust the tensions in accordance with the instructions on the next pages.

- NOTE.** Do not raise the presser foot at the end of a seam but always sew a chain of thread at least 3 cm long.
