*Black Property Owners in the South, 1790-1915* Loren Schweninger, 1990 Property ownership has been a traditional means for African Americans to gain recognition and enter the mainstream of American life This landmark study documents this significant but often overlooked aspect of the black experience from the late eighteenth century to World War I **250 Years in Fauquier County** Kathi Ann Brown, Walter Nicklin, John T. Toler, Fauquier Historical Society (Va.), 2008 Beginning with the early interactions between Native Americans and European explorers and settlers this history traces three and a half centuries of change in Fauquier County Virginia Commissioned by the Fauquier Historical Society to commemorate the county's 250th anniversary this engrossing narrative tells the story of the men and women black and white who built the region's farms plantations schools and churches Individual biographies are interwoven with a social political and military history of the American Revolution and Civil War allowing crucial events in the county's history to come alive This book also explores Fauquier's depressed economy after the Civil War and shows how the area's location and natural beauty drew wealthy outsiders to purchase estates in the early part of the twentieth century After midcentury the enormous expansion of the Washington suburbs ignited a heated and ongoing debate over the county's position on growth and development Related here is the fascinating story of a historically significant county The volume has more than two hundred illustrations some displaying the county's stunning beauty which enhance the book throughout **Journal of the House of Delegates of the Commonwealth of Virginia** Virginia. General Assembly. House of Delegates, 1884 The Virginia Magazine of History and Biography Philip Alexander Bruce, William Glover Stanard, 1956 Vols 1 28 30 31 33 34 include the society's Proceedings at its annual meeting 1893 1923 1926 **Letters to Washington and Accompanying Papers: 1774, 1775. General index** Stanislaus Murray Hamilton, 1902 *The History of Black Business in America* Juliet E. K. Walker, 2009 In this wide ranging study Stephen Foster explores Puritanism in England and America from its roots in the Elizabethan era to the end of the seventeenth century Focusing on Puritanism as a cultural and political phenomenon as well as a religious movement Foster addresses parallel developments on both sides of the Atlantic and firmly embeds New England Puritanism within its English context He provides not only an elaborate critique of current interpretations of Puritan ideology but also an original and insightful portrayal of its dynamism According to Foster Puritanism represented a loose and incomplete alliance of progressive Protestants lay and clerical aristocratic and humble who never decided whether they were the vanguard or the remnant Indeed in Foster's analysis changes in New England Puritanism after the first decades of settlement did not indicate secularization and decline but instead were part of a pattern of change conflict and accommodation that had begun in England He views the Puritans' own claims of declension as partisan propositions in an internal controversy as old as the Puritan movement itself The result of these stresses and adaptations he argues was continued vitality in American Puritanism during the second half of the seventeenth century Foster draws insights from a broad range of sources in England and America

including sermons diaries spiritual autobiographies and colony town and court records Moreover his presentation of the history of the English and American Puritan movements in tandem brings out the fatal flaws of the former as well as the modest but essential strengths of the latter
