

## **FCAT Writing**

- Will be administered February 10, 2009 to all 4<sup>th</sup>, 8<sup>th</sup>, and 10<sup>th</sup> graders
- Students are asked to write a response to an assigned topic.
- They must read, plan, and independently write their responses.

## **Sample Prompt**

### Writing Situation:

- The principal of your school has suggested that watching TV causes students' grades to drop.

### Directions for Writing:

- Think about the effect watching TV has on your grades and your friends' grades. Now write to convince your principal whether watching TV causes students' grades to drop.

## **FCAT Reading**

- Will be administered March 10, 2009
- Measures students' knowledge of reading benchmarks from the Sunshine State Standards.

### **Kinds of Questions**

- Multiple Choice: Requires students to choose the best answer from four possible choices.
- Short & Extended Response: Requires students to read all parts of the question carefully, to plan how to answer the question, and to write the answer in their own words, supporting the answer with information from the reading passage.

*The Testing Charade* Daniel Koretz,2017-08-31 For decades we ve been studying experimenting with and wrangling over different approaches to improving public education and there s still little consensus on what works and what to do The one thing people seem to agree on however is that schools need to be held accountable we need to know whether what they re doing is actually working But what does that mean in practice High stakes tests Lots of them And that has become a major problem Daniel Koretz one of the nation s foremost experts on educational testing argues in *The Testing Charade* that the whole idea of test based accountability has failed it has increasingly become an end in itself harming students and corrupting the very ideals of teaching In this powerful polemic built on unimpeachable evidence and rooted in decades of experience with educational testing Koretz calls out high stakes testing as a sham a false idol that is ripe for manipulation and shows little evidence of leading to educational improvement Rather than setting up incentives to divert instructional time to pointless test prep he argues we need to measure what matters and measure it in multiple ways not just via standardized tests Right now we re lying to ourselves about whether our children are learning And the longer we accept that lie the more damage we do It s time to end our blind reliance on high stakes tests With *The Testing Charade* Daniel Koretz insists that we face the facts and change course and he gives us a blueprint for doing better **5 Full-Length FSA Grade 8 Math**
