called the International Sunday School Lessons This series developed by scholars from several church fellowships provides an orderly study of the Bible in a 6 year period *Yearbook of International Organizations 2014-2015, Volumes 1a & 1b (Set)* Union of International Associations, 2014-06-16 Volume 1 A and B covers international organizations throughout the world comprising their aims activities and events **The Gospel and Tradition** NENE SAKITE, 2021-12-06 This book is deeply rooted in the African cultural realism in which the concept of Mawu or God existed before the arrival of the missionaries from Europe Krobo culture has always accepted and expressed the presence of the Supreme Creator in all without exception aspects of social occupational emotional engagements of life Throughout the book there are illustrations depicting the essence of God in Krobo traditional religion before the arrival of Christian missionaries from Europe The only new concept my ancestors acquired from the missionaries was the story of the life and teaching of Christ and the doctrine as the Savior and Mawu second person in the Trinity at the same time Krobo culture eloquently and sincerely found expression in names like Mawulede God s wish Mawulepee God did it Mawu le ha nor it is God who provides and in sentences expressing hope as in Mawu nge God lives Mawumaalewor God would care for us and others all of which existed before the story of the cross The book is the manifestation of what is happening today with the gospel and tradition on the continent with the self acclaimed preachers of the gospel and how they have misrepresented the whole doctrine of Christianity to acquire wealth rather than preaching salvation to the people of Africa These preachers I refer to as false prophets and mostly blasphemers who have taken undue advantage of the ignorance of the people of Africa wisely because religion is part and parcel of life in the African society This book goes at length to delineate Christian influence on the cultural values in Africa using the Krobo experience and to display cultural traits and interaction with the missionaries It will also go into Christian tradition and the African tradition which apparently would lead us into the training of the clergy and show why Christianity is being represented deceptively by false prophets in Africa and sometimes at the expense of our tradition There will be a discussion on Krobo culture and the gospel as well as cultural norms that affect Christians the most A full discussion depicts the world of blasphemy which preachers and people call it Christianity but which I term victims of Christianity It is very important to admire our traditional saints and show the similarities with the religious saints And who are the traditional saints anyhow In the end I conclude with a discussion on poverty spelling out the tradition that must be reformed to diminish poverty which is portrayed in the book as the enemy of culture and development This book is relevant for contemporary religious and cultural appreciation what it is to be Christian and African no less than the proper training of the clergy that befits the African society before they are shipped to Africa or any other developing country with different cultural orientation for adaptation Cybersecurity Discourse in the United States Sean T. Lawson, 2019-12-05 This book examines the role of cyber doom rhetoric in the U S cybersecurity debate For more than two decades fear of cyber doom scenarios i e cyberattacks against critical infrastructure resulting in catastrophic physical social and economic impacts has been a

persistent feature of the U S cybersecurity debate This is despite the fact that no cyberattack has come close to realizing such impacts This book argues that such scenarios are part of a broader rhetoric of cyber doom within the U S cybersecurity debate and takes a multidisciplinary approach that draws on research in history sociology communication psychology and political science It identifies a number of variations of cyber doom rhetoric then places them into a larger historical context assesses how realistic the fears expressed in such rhetoric are and finally draws out the policy implications of relying on these fears to structure our response to cybersecurity challenges The United States faces very real cybersecurity challenges that are nonetheless much less dramatic than what is implied in the rhetoric This book argues that relying on cyber doom rhetoric to frame our thinking about such threats is counterproductive and encourages us to develop ways of thinking and speaking about cybersecurity beyond cyber doom This book will be of much interest to students of cybersecurity foreign policy public administration national security and international relations in general *Advancing Equality* Jody

Heymann,Aleta Sprague,Amy Raub,2020-01-14 In a world where basic human rights are under attack and discrimination is widespread *Advancing Equality* reminds us of the critical role of constitutions in creating and protecting equal rights Combining a comparative analysis of equal rights in the constitutions of all 193 United Nations member countries with inspiring stories of activism and powerful court cases from around the globe the book traces the trends in constitution drafting over the past half century and examines how stronger protections against discrimination have transformed lives Looking at equal rights across gender race and ethnicity religion sexual orientation and gender identity disability social class and migration status the authors uncover which groups are increasingly guaranteed equal rights in constitutions whether or not these rights on paper have been translated into practice and which nations lag behind Serving as a comprehensive call to action for anyone who cares about their country s future *Advancing Equality* challenges us to remember how far we all still must go for equal rights for all A free open access ebook is available upon publication Learn more at www.luminosoa.org

Orthodoxy and Islam Archimandrite Nikodemos Anagnostopoulos,2017-04-28 Church History reveals that Christianity

has its roots in Palestine during the first century and was spread throughout the Mediterranean countries by the Apostles. However, despite sharing the same ancestry, Muslims and Christians have been living in a challenging symbiotic co-existence for more than fourteen centuries in many parts of South Eastern Europe and the Middle East. This book analyses contemporary Christian-Muslim relations in the traditional lands of Orthodoxy and Islam. In particular, it examines the development of Eastern Orthodox ecclesiological thinking on Muslim-Christian relations and religious minorities in the context of modern Greece and Turkey. Greece, where the prevailing religion is Eastern Orthodoxy, accommodates an official recognised Muslim minority based in Western Thrace as well as other Muslim populations located at major Greek urban centres and the islands of the Aegean Sea. On the other hand, Turkey, where the Ecumenical Patriarchate of Constantinople is based, is a Muslim country which accommodates within its borders an official recognised Greek Orthodox Minority. The book then suggests ways in which to overcome the difficulties that Muslim and Christian communities are still facing with the Turkish and Greek States. Finally, it proposes that the positive aspects of the co-existence between Muslims and Christians in Western Thrace and Istanbul might constitute an original model that should be adopted in other EU and Middle East countries where challenges and obstacles between Muslim and Christian communities still persist. This book offers a distinct and useful contribution to the ever popular subject of Christian-Muslim relations, especially in South East Europe and the Middle East. It will be a key resource for students and scholars of Religious Studies and Middle Eastern Studies.
