The Other in Contemporary Migrant Cinema Guido Rings, 2016-01-08 As a rapidly aging continent Europe increasingly depends on the successful integration of migrants. Unfortunately contemporary political and media discourses observe and frequently also support the development of nationalist, eurosceptic and xenophobic reactions to immigration and growing multiethnicity. Confronting this trend European cinema has developed and disseminated new transcultural and postcolonial alternatives that might help to improve integration and community cohesion in Europe and this book investigates these alternatives in order to identify examples of good practices that can enhance European stability. While the cinematic spectrum is as wide and open as most notions of Europeanness the films examined share a fundamental interest in the Other. In this qualitative film analysis approach particular consideration is given to British, French, German and Spanish productions and a comparison of multiethnic conviviality in Chicano cinema.

Screening China's Soft Power Paola Voci, Luo Hui, 2017-10-02 Promoting China's cultural soft power by disseminating modern Chinese values is one of the policies of President Xi Jinping. Although it is usually understood as a top-down initiative implemented willingly or unwillingly by writers, filmmakers, artists and so on and often manifesting itself in clumsy and awkward ways for example the concept of the Chinese dream intended to rival and perhaps appeal more strongly than the American dream modern Chinese values are in fact put forward in many ways by many different cultural actors. Through analyses of film festivals, CCTV, Confucius Institutes, auteurs, blockbusters, reality TV and online digital cultures this book exposes the limitations of China's officially promoted soft power in both conception and practice and proposes a pluralistic approach to understanding Chinese soft power in local, regional and transnational contexts. As such the book demonstrates the limitations of existing theories of soft power and argues that the US-derived concept of soft power can benefit from being examined from a China perspective.
