## **Feed The Need English Edition:**

*Can Potatoes Feed the World?* John E. Bradshaw, 2025-07-01 By 2050 the United Nations UN predicts a world population of 9.7 billion compared with 8 billion in 2022. Increases in food and energy production and the supply of fresh water will be needed to sustain this population whilst reducing greenhouse gas emissions to limit global warming. The average global temperature is likely to be 2 to 3 degrees Celsius above that in pre industrial times unless there is a greater sense of urgency following the UN Climate Change Conference COP26 in Glasgow in 2021 which still wanted to limit the rise to 1.5 degrees. There is also increasing concern about the loss of biodiversity on Earth from human activity including farming as seen in the outcomes of the UN Biodiversity Conference COP15 in Montreal in 2022. More encouragingly on 1 December 2023 134 countries at COP28 in Dubai endorsed the landmark sustainable agriculture resilient food systems and climate action declaration which put food systems transformation on the global climate agenda. While food systems are vital for meeting societal needs and enabling adaptation to climate impacts they are also responsible for as much as a third of global greenhouse gas emissions. A warmer climate and loss of biodiversity will make life more difficult for humankind but can potatoes at least help with food security? It is a scientific and technological question set in a political economic and societal context. It has arisen because potatoes have made the journey from wild species to global food crop. The contribution of the potato to the United Nations Millennium Development Goals of providing food security and eradicating poverty was recognized when an International Year of the Potato 2008 IYP 2008 was officially launched at the United Nations UN headquarters in New York on 18 October 2007 by the Director General of FAO Food and Agriculture Organization of the United Nations. Today the importance of potatoes can be seen in the context of the United Nations 2030 Agenda for Sustainable Development which was adopted in 2015 and started on 1 January 2016. The agenda has 17 goals the second of which SDG2 is to end hunger achieve food security and improved nutrition and promote sustainable agriculture. By 2030 the aim of the agenda is to ensure access by all people in particular the poor and people in vulnerable situations including infants to safe nutritious and sufficient food all year round. However the projection in the 2023 Sustainable Development Goals Report was not zero hunger but 600 million people still facing hunger. Hence a greater sense of urgency is required and also a need to look beyond 2030 to 2050. This book explores how potatoes can contribute to SDG2 by increasing potato production and improving the nutritional value of potatoes in particular to alleviate micronutrient deficiencies hidden hunger having first explained how potatoes became a major food crop and the lessons to be learnt from a major crop failure and resulting famine.

**How to Feed the Mediavore**

Heather Thompson Day, 2013-08-27 Our generation is connected to virtually anything and everything All we have to do is tap an icon on our smartphones or tablets or click a button on the Internet and we have instant access to social networks news weather music games TV and movies E mail and push notifications keep us constantly informed and track our friends every status update We don't miss a thing Or do we Have we become so connected that we're disconnected from what's actually important Is it really so hard to communicate with an unseen God when we text tweet and e mail people we cannot see Could it be that we're not hungry for Him we're simply too full from gorging ourselves at a media smorgasbord Heather Marie Thompson challenges us to take a few moments every day for the next 30 days to think about what truly matters in life Jesus needs us to connect with Him so that He can save us but there's no app for that

*No Grammar Tears 1* Marthus-Adden Zimboant, 2013 First of all other I find No Grammar Tears very informative What amazes me is the kind of dedication and patience Marthus Adden spent in writing this book This is because this kind of genre actually needs full attention Truly whatever he has written is precise

and correct I really admire his generosity of sharing his knowledge about English owing to the fact that English is his second language What is good about the book is that the writer wrote it in a manner that readers can easily understand it In other words what makes this book different from the other English grammar books in the market is that it is more user friendly which means he wrote it in a manner that can easily be understood especially by those who just learned English and want to learn more Correctly put this book is a guide to those who wants to learn English on their own As a matter of fact he has a knowledge check in every subject he has discussed in this book He catered everything especially in the part on how to construct sentences which are very precise and which make it very easy to learn the book He did not change anything at all in terms of the right way to speak and learn English but instead he made it easier and more convenient for those people whose English is not their first language In point of fact he wrote this book not because he wants to show off to the world that he is a good grammarian but because he wants to help those struggling to learn English The book therefore deserves recognition because he is actually giving a favour to those who can't afford to have a private tutor to teach them how to speak English correctly I must in conclusion admit that this book will really help those people who want to learn English language those people who are striving to speak perfect English and those people that English is their second language I will therefore commend the author for this book
