Coercive Control Evan Stark, 2009-03-01 One of the most important books ever written on domestic violence Coercive Control breaks through entrenched views of physical abuse that have ultimately failed to protect women Evan Stark founder of one of America s first battered women s shelters shows how domestic violence is neither primarily domestic nor necessarily violent but a pattern of controlling behaviors more akin to terrorism and hostage taking Drawing on court records interviews and FBI statistics Stark details coercive strategies that men use to deny women their very personhood from beeper games to food logs to micromanaging dress speech sexual activity and work Stark urges us to move

beyond the injury model and focus on the real victimization that allows men to violate women's human rights with impunity. Provocative and brilliantly argued *Coercive Control* reframes abuse as a liberty crime rather than a crime of assault and points the way to bringing real equality for women in line with their formal rights to personhood and citizenship freedom and safety.

Intimate Partner Violence Samuel R. Aymer, 2021-09-09 *Intimate Partner Violence Clinical Interventions with Partners and Their Children* brings into focus an ecological and clinical frame for addressing the resulting psychological effects of intimate partner violence (IPV). Aymer presents a perspective that is often omitted from social science textbooks which are geared to policy practice tending to expose students to macro systemic ideas including criminal justice policies and procedures relative to IPV. However, this book expands clinical practice pedagogy by reinforcing the need for students to go beyond macro issues in order to deliver competent clinically based interventions that help partners and their children work through the consequential effects of partner violence. Designed for graduate students in social work psychology gender studies and allied mental health programs, it expands the discourse arguing that IPV is a complex psycho-social-political relational problem that must be understood from a multi-theoretical perspective. Through case studies, theory research, and the author's clinical practice wisdom, this text will increase understanding of how to work clinically with women affected by IPV, increase knowledge of how to work with abusive men, heighten knowledge of how IPV affects children and adolescents, expand knowledge of social and cultural notions, and explore men's role in terms of advocating against gender-based violence.

Anderson MD, 2010-10-01 In a courageous achingly honest and long overdue insight and expose which just may be on the distaff side of political correctness the author invites a rethinking of our origins and the beliefs on which we build important components of our lives In particular how in spite of the creative compassionate love and energy of God which is our source humanity has become a purveyor of intolerance abuse and violence She traces the role that memory both personal and transgenerational has played in the evolution of human consciousness and how religious and cultural beliefs therein embedded have dictated attitudes feelings and behavior which too often have served and continue to serve as ignition to violence and wars Looking to the future she pin points what needs to be done to moderate the violence in our world and reignite the divine by fostering the tolerance and compassion that derives from truly believing every child woman and man of all creeds and races come from the same source
