s compassionate suffering at the Crucifixion anticipating by several centuries an influential medieval style of devotion known as affective piety whose origins generally have been confined to the Western High Middle Ages *Mexico in Its Novel* John S. Brushwood, 1972-01-01 *Mexico in Its Novel* is a perceptive examination of the Mexican reality as revealed through the nation's novel. The author presents the Mexican novel as a cultural phenomenon, a manifestation of the impact of history upon the nation, an attempt by a people to come to grips with and understand what has happened and is happening to them. Written in a clear and graceful style, this study examines the life of the novel as a genre against the background of Mexican chronology. It begins with a survey of the mid-twentieth century novel, the Mexican novel which came of age in the period following the 1947 publication of Agustín Yez's *The Edge of the Storm*. During this time the novel resolved some of its most complicated problems and as a result offered a wider and deeper view of reality. Having established this circumstance, John Brushwood goes back in time to the Conquest and then moves forward to the twentieth century novel. Passing from the Colonial Period into the nineteenth century, the author recognizes the relationship between Romanticism and the desire for logical social behavior and then views this relationship in the perspective of the Reform, an attempt to bring order out of chaos. The novel under the Díaz dictatorship is seen in three different phases, and the last Díaz chapter actually moves into the Revolution itself. The novel during the years of fighting is considered along with the first post-Revolutionary fiction. From that point, the developing conflict within Mexican reality itself, a conflict between introversion and extroversion, nationalism and cosmopolitanism, reaches out to seek its solution in the novels of the first chapter.

Freedom and Possibility Prusak, Bernard P., 2023. God omnipotent in love has created freedom and possibility, whereas hierarchical dominance within the church limits the role of baptized women and men. The book considers the ongoing adventure of God acting through the randomness and chance of the evolutionary process whereby matter became life and life became self-conscious spirit with freedom. God's creation of freedom has been pivotal in the theology of the younger Joseph Ratzinger and of Karl Rahner, Edward Schillebeeckx and others. Making room for human freedom involves thinking about God's patience, defenselessness and vulnerability, particularly as made clear in the humanity of Jesus. By creating humans with their finite and free will, God has voluntarily renounced power and control. And as Walter Kasper has emphasized, if the Church is to be a credible advocate for human rights and freedom in the world, it must assess its own record and plan to integrate freedom into its internal structures.

Thomas F. Torrance and the Church Fathers Jason R. Radcliff, 2014-11-05. In this volume, Jason Radcliff examines T. F. Torrance's reading of the church fathers. Radcliff explores how Torrance reconstructs the patristic tradition, producing a Reformed evangelical and ecumenical version of the Consensus Patrum. Consensus of the Fathers. This book investigates how Torrance uniquely understands the Fathers and the Reformers to be mutually informing and how, as such, his approach involves significant changes to both standard readings of the Fathers and Torrance's own Reformed evangelical tradition. Torrance's approach is distinctive in its Christocentric rootedness in the primary theme of the Nicene homoousion.

of one essence with the Father and its champion Athanasius of Alexandria The book explores Torrance's inherently broad ecclesiology and constructive achievements both of which contribute to his ongoing ecumenical relevance
