Liberties in a Politically Correct society **The administration of examinations for 15-19 year olds in England** Great Britain: Parliament: House of Commons: Education Committee,2012-07-03 Additional written evidence is contained in Volume 3 available on the Committee website at www.parliament.uk/educom **Culture Rules** Jo Facer,2021-11-28 School culture is unarguably central to a school's success or failure While there is no single correct school culture there are lessons to be learned Culture Rules examines the factors that create an environment where students want to learn and adults want to teach Culture Rules explores staff culture student culture team building establishing and maintaining norms inside and outside the classroom and lessons learned from top performing schools By sharing her personal journey in school leadership Jo Facer explores the different factors that can affect a school's culture considers hot topics such as teacher workload discipline marking CPD and shows how these can influence a school's culture and success and includes real case studies to show how schools have developed a strong culture and the impact on performance Full of practical sustainable ideas for schools to implement in the short and long term this is essential reading for all school leaders in primary and secondary schools looking to build a great school culture in their organisations 2012 GCSE English results Great Britain: Parliament: House of Commons: Education Committee,2013-06-11 The 2012 GCSE English results prompted significant controversy which ultimately resulted in an application for judicial review This report sets out the background to these events and identifies lessons to be learned The problems with GCSE English can be traced back to the 2007/09 development phase of the qualification in particular the turbulence which resulted from the shift away from a mostly linear to a modular system combined with a high proportion of controlled assessment and generous marking tolerances Exam board experts raised concerns at the time but these were not acted upon by the regulator the then interim Ofqual Further difficulties arose because of pressures from the school accountability system The problems experienced with GCSE English in 2012 highlighted serious weaknesses in the moderation of speaking and listening with consequences for grade awarding The current status of Ofqual as an independent regulator accountable to Parliament is the right one However the Coalition Government is bringing in wholesale changes to GCSEs and A levels to a tight timetable and at the same time Ofqual must have systems in place The Committee is also concerned that there is a rush towards separate exam systems for England Wales and Northern Ireland without careful reflection on what might be lost or consensus that this is the right thing to do

Head on the Block Tony Cooper, 2012-11-29 Who is really in charge of our schools the headteachers or the politicians Tony Cooper lifts the lid on leading a school at a time of increasing accountability and government interference In December 2011 Tony Cooper retired from the headship of a comprehensive secondary school in Cambridgeshire after almost a quarter of a century in post In **Head on the Block** he reflects on the many issues that have affected education over this time discussing their impact on schools in general and his own school in particular He places issues and events within a social and historical context showing how education has been subjected during the period of his career to vastly increased political interference His commentary is interspersed with many personal recollections and anecdotes both humorous and serious as he presents a critique of the condition of state education today and how the role of the headteacher has changed He takes a light hearted look at his own school and university education and shows how the successes and amusing mishaps of his early career impacted on his decision to seek headship The author loses no opportunity to take issue with the seemingly endless stream of government initiatives which have been flung at headteachers impinging on the management of schools and unduly influencing the content and delivery of the school curriculum At the same time he delivers an irreverent swipe at today s climate of political correctness and the continual need for change for its own sake Above all he challenges the current results orientated target driven culture which has been systematically inflicted on schools making a plea for education to be as broad as possible and enjoyable for its own sake rather than simply a means to an end

Schools in England Barnaby Lenon, 2017-04-24 Barnaby Lenon a former schoolmaster and headmaster who is chair of the Independent Schools Council takes an in depth look at the elements that make up a successful school He examines leading and latest research on school leadership and management looks at how teachers pupils parents and governors can achieve results and puts the spotlight on subjects exam systems and social mobility For his research he visited a number of schools that are achieving outstanding results John Perryn Primary School Acton Tollgate Primary School Newham King Solomon Academy Marylebone Burlington Danes Academy Hammersmith West London Free School Hammersmith Michaela Community School Wembley St Mary Magdalene Academy Islington Dixons Kings Academy Bradford Tauheedul Boys School Blackburn London Academy of Excellence Newham and Brighton College His analysis of their innovations and achievements provides an insight into some of England s most successful schools **Education in a Federal UK** John Furlong, Ingrid Lunt, 2019-10-23 Britain s two recent referenda on Brexit 2016 and on Scottish independence 2014 have raised in the public mind fundamental questions about the future of the UK It seems that for the first time the public the media and the political elite have woken up to the fact that in different parts of the UK there are different histories different aspirations and different imagined futures in relation to a whole range of vitally important political issues But what the public debate often fails to recognise is that in many areas of public life perhaps especially education the UK is already a federal state and in key respects has been so for many years The aim of this volume is therefore to take stock to try and capture what the current state of educational policy and practice is across the whole of the UK This has been achieved by commissioning two different papers from each of the four countries Wales Scotland Northern Ireland and England The first is an overview exploring the distinctive history principles and current policies of each country The second paper has been specifically chosen as a case study of a key policy that highlights the distinctiveness of each country the Foundation Phase for Wales assessment policy in Scotland shared education initiatives in Northern Ireland and higher education policy in England Taken together these eight papers give an important insight into the complexities of educational policy and practice across the whole of the UK today This volume was originally published as a special issue of Oxford Review of Education **Beyond Belief** Andrew Morrish, 2025-01-31 This timely and powerful book is brought to you by the team behind Headrest a free 24 7 wellbeing service for headteachers It is clear that our current inhumane system of school accountability inspection in particular is no longer fit for purpose Urgent change is needed We hope this book serves as the catalyst for rebooting the system as we seek to explore alternative approaches to rigorous school accountability Consisting of a diverse range of authentic voices from headteachers to journalists governors to teachers and authors to researchers Beyond Belief brings a refreshing dimension to the accountability debate This book aims to provoke challenge and reaffirm your beliefs in equal measure Packed with

thoughtful insights honest reflections and a unique range of perspectives on accountability these lived experiences provide a compelling case for change Collectively as a profession we must seek to establish a robust purposeful and humane system of how we hold our schools and each other to account Once again we must start to speak up for ourselves This book aims to do just that Boundary-Spanning in Organizations Janice Langan Fox,Cary Cooper,2013-11-12 In more recent times the essence of the gatekeeper s role has moved to the boundary spanner a systems thinker who understands the specific needs and interests of the organization and whose greatest asset is their ability to move across and through the formal and informal features of the modern organization There are many types of boundaries associated with an organization for example horizontal function and expertise vertical status hierarchy geographic demographic and stakeholder Boundaries are the defining characteristic of organizations and boundary roles are the link between the environment and the organization Aldrich Herker 1977 with functions crucial to the effectiveness and success of the organization Despite being a critical success factor for an organization beginning in the 1970s the term boundary spanning has had an intermittent research history there has been no systematic body of research that has evolved over time This book aims to invigorate excite and expand the literature on boundary spanning in a diverse range of disciplines such as sociology organizational psychology management medicine defence health social work and community services The book serves as the first collection of reviews on boundary spanning in organizations **Make the Grade at GCSE Mathematics Higher Tier** Anthony Nicolaides,2005
