2012 GCSE English results Great Britain: Parliament: House of Commons: Education Committee, 2013-06-11 The 2012 GCSE English results prompted significant controversy which ultimately resulted in an application for judicial review This report sets out the background to these events and identifies lessons to be learned The problems with GCSE English can be traced back to the 2007 09 development phase of the qualification in particular the turbulence which resulted from the shift away from a mostly linear to a modular system combined with a high proportion of controlled assessment and generous marking tolerances Exam board experts raised concerns at the time but these were not acted upon by the regulator the then interim Ofqual Further difficulties arose because of pressures from the school accountability system The problems experienced with GCSE English in 2012 highlighted serious weaknesses in the moderation of speaking and listening with consequences for grade awarding The current status of Ofqual as an independent regulator accountable to Parliament is the right one However the Coalition Government is bringing in wholesale changes to GCSEs and A levels to a tight timetable and at the same time Ofqual must have systems in place The Committee is also concerned that there is a rush towards separate exam systems for England Wales and Northern Ireland without careful reflection on what might be lost or consensus that this is the right thing to do **Journal of the House of Representatives of the United States** United States. **The Education Invasion** Joy Pullmann, 2017-03-14 Most Americans had no idea what Common Core was in 2013 according to polls But it had been creeping into schools nationwide over the previous three years and children were feeling its effects They cried over math homework so mystifying their parents could not help them even in elementary school They read motley assortments of informational text instead of classic literature They dreaded the high stakes tests in unfamiliar formats that were increasingly controlling their classrooms How did this latest and most sweeping reform of American education come in mostly under the radar Joy Pullmann started tugging on a thread of reports from worried parents and frustrated teachers and it led to a big tangle of history and politics intrigue and arrogance She unwound it to discover how a

cabal of private foundation honchos and unelected public officials cooked up a set of rules for what American children must learn in core K 12 classes and how the Obama administration pressured states to adopt them Thus a federalized education scheme took root despite legal prohibitions against federal involvement in curriculum Common Core and its testing regime were touted as an absolute game changer in public education yet the evidence so far suggests that kids are actually learning less under it Why then was such a costly and disruptive agenda imposed on the nation s schools Who benefits And how can citizens regain local self governance in education so their children s minds will be fed a more nourishing intellectual diet and be protected from the experiments of emboldened bureaucrats The Education Invasion offers answers and remedies

**Iran, Israel, and the United States** Ofira Seliktar,Farhad Rezaei,2018-06-20 This book analyzes the process of evaluating Iran s nuclear project and the efforts to roll it back resulting in the 2015 nuclear agreement known as the Joint Comprehensive Plan of Action JCPA Despite its aura of scientific exactitude nuclear intelligence is complex and susceptible to

methodological disagreements and political bias at the international oversight level the International Atomic Energy Agency IAEA and within the countries involved in the rollback project Israel and the United States To highlight both the technological problems of assessing compliance and the politicization each chapter in the book uses a real time comparison of the nuclear developments in Iran and the perception of Israel and the United States This methodology yielded some significant results Essentially two camps had formed in each country those who were pushing for an agreement with Iran and those who opposed it The Israeli intelligence agencies the Mossad and the Military Intelligence as well as the highly secretive Israeli Atomic Energy Commission IAEC which advised them considered the program to be weak and slow moving The right wing government of Benjamin Netanyahu suggested that Iran was steps away from the point of no return making it an existential threat to Israel A virtually identical split emerged in Washington While the intelligence community and the advising scientists from the National Nuclear Laboratories considered Iran progress to be relatively modest the Republicans and the Israel lobby the Jewish organizations and the Christian Zionists warned of the imminent danger of a nuclear Iran With the Obama administration pushing for the JCPOA a fierce debate took place in Congress The Israeli intelligence and military chiefs led by the Mossad chief Meir Dagan which had previously blocked Netanyahu from a preemptive action quietly supported the agreement In Washington the Israel lobby and the Republicans helped by Netanyahu mounted an all out effort to defeat the deal in Congress The pro deal coalition fought back by mobilizing the scientific community military and intelligence officials the business lobby and grassroots Democrats The JCPOA represents the first successful effort of peaceful counterproliferation At the same excessive politicization has clouded its legitimacy and cast doubt about its future
