Minerals Yearbook 2014 V 3 Area Reports International Asia and the Pacific Volume III Area Reports International is published as four separate reports These regional reports contain the latest available minerals data on more than 180 foreign countries and discuss the importance of minerals to the economies of these nations and the United States Each report begins with an overview of the region s mineral industries during the year It continues with individual country chapters that examine the mining refining processing and use of minerals in each country of the region and how each country s mineral industry relates to U S industry Most chapters include production tables and industry structure tables information about Government policies and programs that affect the country s mineral industry and an outlook section *Minerals Yearbook* Geological Survey, Interior Department, Mines Bureau, 2019-01-31 This volume covering metals and minerals contains chapters on approximately 90 commodities In addition this volume has chapters on mining and quarrying trends and on statistical surveying methods used by Minerals Information plus a statistical summary Twenty Years of Education Transformation in Gauteng 1994 to 2014 Felix Maringe, Martin Prew, 2015-05-05 Twenty Years of Education Transformation in Gauteng 1994 to 2014 An Independent Review presents a collection of 15 important essays on different aspects of education in Gauteng since the advent of democracy in 1994 These essays talk to what a provincial education department does and how and why it does these things whether it be about policy resourcing or implementing projects Each essay is written by one or more specialist in the relevant focus area The book is written to be accessible to the general reader as well as being informative and an essential resource for the specialist reader It sheds light on aspects of how a provincial department operates and why and with what consequences certain decisions have been made in education over the last 20 turbulent years both nationally and provincially There has been no attempt to fit the books chapters into a particular ideological or educational paradigm and as a result the reader will find differing views on various aspects of the Gauteng Department of Educations present and past We leave the reader to decide to what extent the GDE has fulfilled its educational mandate over the last 20 years **Education, Skills, and Technical Change** Charles R. Hulten, Valerie A. Ramey, 2019-01-11 Over the past few decades US business and industry have been transformed by the advances and redundancies produced by the knowledge economy The workplace has changed and much of the work differs from that performed by previous generations Can human capital accumulation in the United States keep pace with the evolving demands placed on it and how can the workforce of tomorrow acquire the skills and competencies that are most in demand Education Skills and Technical Change explores various facets of these questions and provides an overview of educational attainment in the United States and the channels through which labor force skills and education affect GDP growth Contributors to this volume focus on a range of educational and training institutions and bring new data to bear on how we understand the role of college and vocational education and the size and nature of the skills gap This work links a range of

research areas such as growth accounting skill development higher education and immigration and also examines how well students are being prepared for the current and future world of work *Philippines* International Monetary Fund. Asia and Pacific Dept, 2014-08-08

KEY ISSUES Context Growth remains rapid but has moderated from the 7.14 percent recorded in 2013 Remittances and accommodative monetary and financial conditions remain the primary growth drivers despite volatile capital flows slowing activity in the region and severe natural disasters Inflation has picked up to over 4 percent while the current account remains in surplus Local financial markets were moderately impacted by the Fed's taper talk and action weakening the peso and equity prices Credit growth has quickened especially to construction Potential growth has risen to about 6.14 percent However persistent weakness in the business climate is a risk to sustained growth and hinders job creation Foreign ownership restrictions inadequate infrastructure and high doing business costs have held back overall investment and employment Along with frequent natural disasters this has kept poverty elevated thereby sustaining outward migration Outlook and risks Normalizing financial conditions are forecast to ease growth to 6.12 percent over the medium term while keeping inflation within the band and moderating the current account surplus Abrupt changes in global financial conditions and a sharp growth slowdown in EMs are among the external growth risks On the domestic front excessive flow of real and financial resources to the property sector could increase volatility of asset prices and GDP growth over the longer run Policy recommendations A more restrictive policy stance is needed to preserve macro financial stability with rebalancing of the mix to allow higher public investment spending while implementing reforms to sustain vibrant growth and make it more inclusive Absorbing liquidity and raising official interest rates would address second round inflation effects and potential overheating and financial stability risks Allowing the exchange rate to adjust more fully to structural inflows while smoothing the effect of cyclical flows would limit further sustained reserve buildup Addressing specific risks from real estate and large credit exposures requires further targeted measures and broadening the BSP's mandate to include financial stability This would help prevent diversion of systemic risk to shadow banking and strengthen tools to manage risks from deepening cross border financial integration Raising the fiscal deficit from below 1.2 percent of GDP in 2013 to 2 percent of GDP in 2014 to accommodate reconstruction spending should be accompanied by tighter monetary and financial conditions Mobilizing sizable additional stable revenue would ensure room for structural spending priorities while preserving fiscal prudence Improving the investment climate by relaxing foreign ownership limits reducing red tape limiting tax holidays and reducing labor and product market rigidities would enhance competition support PPP execution and create employment opportunities within the Philippines

Communication that Counts Pia Patricia P. Tenedero, 2022-11-29 To date communication research in accounting has largely focused on the competencies that define what constitutes effective communication Highly perception based skills focused and Global North centric existing research tends to echo the skills deficit discourse which overemphasizes the role of the higher education system in developing students work relevant

communication skills This book investigates dominant views about communication and interrogates what shapes these views in the accounting field from a Global South perspective exploring the idea of good communication in the globalized accounting field Taking the occupational stereotype of shy employees who are good with numbers but bad with words as its starting point this book examines language and communication practices and ideologies in accounting education and work in the Philippines As an emerging global leader in offshore accounting the Philippines is an ideal context for an exploration of multilingual multimodal and transnational workplace communication
