Commercial Applications and Physical Education **Copyright Class Struggle** Hannibal Travis,2018-10-04 Earning an income in our time often involves ownership of or control over creative assets Employing the law and philosophy of economics this illuminating book explores the legal controversies that emerge when authors singers filmmakers and social media barons leverage their rights into major paydays It explores how players in the entertainment and technology sectors articulate claims to an ever increasing amount of copyright protected media It then analyzes efforts to reform copyright law in the contexts of 1 increasing the rights of creators and sellers and 2 allocating these rights after employment and labor disputes constitutional challenges to intellectual property law efforts to legalize online mashups and remixes and changes to the amount of streaming royalties paid to actors and musicians This work should be read by anyone interested in how copyright law and its potential reform shapes the ownership of ideas in the social media age **Productivity in Higher Education**

Caroline M. Hoxby, Kevin Stange,2020-01-10 How do the benefits of higher education compare with its costs and how does this comparison vary across individuals and institutions These questions are fundamental to quantifying the productivity of the education sector The studies in Productivity in Higher Education use rich and novel administrative data modern econometric methods and careful institutional analysis to explore productivity issues The authors examine the returns to undergraduate education differences in costs by major the productivity of for profit schools the productivity of various types of faculty and of outcomes the effects of online education on the higher education market and the ways in which the productivity of different institutions responds to market forces The analyses recognize five key challenges to assessing productivity in higher education the potential for multiple student outcomes in terms of skills earnings invention and employment the fact that colleges and universities are multiproduct firms that conduct varied activities across many domains the fact that students select which school to attend based in part on their aptitude the difficulty of attributing outcomes to individual institutions when students attend more than one and the possibility that some of the benefits of higher education may arise from the system as a whole rather than from a single institution The findings and the approaches illustrated can facilitate decision making processes in higher education **Oswaal CBSE Class 12th 20 Combined**
