International Handbook on Education in Southeast Asia Lorraine Pe Symaco, Martin Hayden, 2021-12-23 This International Handbook provides a detailed account of the education systems of 11 Southeast Asian nations including Brunei Darussalam, Cambodia, Indonesia, Lao People's Democratic Republic, Malaysia, Myanmar, the Philippines, Singapore, Thailand, Timor Leste and Vietnam. It presents a systematic sector by sector explanation of how these national education systems deliver educational services and respond to national and international issues and challenges. With 56 chapters, the International Handbook is the region's most comprehensive educational reference source. In the first of its chapters, the editors introduce the regional context and draw attention to the distinctive characteristics of each of the 11 systems. Southeast Asia, representing 8.5% of the world's population, is as dynamic as it is diverse. The International Handbook charts progress and establishes a benchmark for documenting future developments. It also provides a stepping off point for more detailed investigations of decision making processes and outcomes across the 11 national education systems.

Serving Library Users from Asia John Hickok, 2019-06-12 Asian populations are among some of the fastest growing cultural groups in the US. While books on serving other target groups in libraries have been published e.g. disabled, Latino, seniors etc, few books on serving library users of Asian heritage have been written. Rather than a generalized overview of Asians as a whole, this book has 24 separate chapters, each on a specific Asian country, cultures of East, Southeast and South Asia, with a wealth of resources for understanding, interacting with, outreaching to and serving library users of each culture. Resources include cultural guides, both print and online, language helps with sample library vocabulary, Asian booksellers, nationwide cultural groups, professional literature and more. Resources and suggestions are given for all three types of libraries: public, school and academic, making this book valuable for all librarians. The
