How To Clean Inside Car Engine:

Advanced Automotive Engine Performance Michael Klyde, CDX Automotive, 2020-04-17 *Advanced Automotive Engine Performance* is designed to prepare novice technicians for the challenge of diagnosing today's highly technical electronic engine controls. Using this curriculum, learners will gain familiarity with the operation and variations of emissions systems and associated onboard monitors. The curriculum especially focuses on applying diagnostic strategy to and performing service procedures for emissions systems faults. Learners will also develop an understanding of IM testing and an ability to interpret IM test reports to aid in diagnosis. This objective-based curriculum will prepare learners for the challenges of servicing engine management systems in the shop today. This is a complete curriculum solution for *Advanced Automotive Engine Performance*. Online courseware is available and is rich in video and animation to support understanding of complex systems. This solution is available in print plus digital or digital only offerings providing eBook and online course pairing with mobile-friendly adaptability. Complete tests, tasksheets, and instructor resources make this curriculum easy to adopt and integrate into any automotive program.

Fundamentals of Automotive Technology CDX Automotive, 2013 *Fundamentals of Automotive Technology: Principles and Practice* covers crucial material for career and technical education, secondary, post-secondary, and community college students and provides both rationales and step-by-step instructions for virtually every non-diagnosis NATEF task. Each section provides a comprehensive overview of a key topic area with real-life problem scenarios that encourage students to develop connections between different skill and knowledge components. Customer service, safety, and math/science and literary principles are demonstrated throughout the text to build student skill levels. Chapters are linked via cross-reference tools that support skill retention, critical thinking, and problem solving. Students are regularly reminded that people skills are as important as technical skills in customer service fields.
