button he or she will see a notice that the software must be registered before the action is performed Registration usually involves the payment of money This book will show the users which programs truly do it for free Using this book will save the reader many hours of searching downloading and installing programs only to find a demand of payment The author has done the research and legwork to find the free gems that will help the reader This book will also show the user how to use a GPS device or application to avoid speed traps and automated ticketing cameras and where to download the required data Saving the cost of just one ticket will cause this book to pay for itself many times over These are just a few of many examples of money savers that can be found in this book
