Ileap Study Guide:

Aid for Trade and Development Dominique Njinkeu, Hugo Cameron, 2007-12-24 Following in the wake of the World Trade Organization's engagement with Aid for Trade this book brings together a range of perspectives around this emerging issue. The collection of articles in this volume presents many of the ideas elaborated through research conducted by International Lawyers and Economists Against Poverty ILEAP since 2005 and is intended to provide a basis for further study. Since many of the contributions on aid for trade to date have come from the North the book looks to deepen the debate by forwarding voices and experiences from the South. The book traces the evolution of Aid for Trade from its beginnings and examines the global architecture modalities and costs associated with its implementation. Drawing on lessons from national and regional experiences this book further explores ways in which Aid for Trade can both move forward and become a real tool for poverty reduction in beneficiary countries.

Academic Leadership and Governance of Higher Education James T. Harris, Jason E. Lane, Jeffrey C. Sun, Gail F. Baker, 2023-07-03 Winner of the 2012 ASHE CAHEP Barbara Townsend Lecture Award. To prosper and thrive in an increasingly unpredictable national and global environment U.S. higher education will need to adapt, innovate and evolve once again as it has during every major societal change over the past four centuries. The purpose of this new edition published a turbulent decade after the first is to provide institutional leaders from department chairs to trustees with a broad understanding of the academic enterprise, strategic guidance and key principles to assist them in navigating the future and drive the success of their institutions as they confront the unimaginable. Recognizing that the hallmark of higher education in the U.S. is the diversity of institution types each of which is affected differently by external and internal influences the authors provide examples and ideas drawn from the spectrum of colleges and universities in the not-for-profit sector. This book covers the major functions and constituent departments and units within institutions the stakeholders from students and faculty through the echelons of administration the external environment of elected officials foundations philanthropists and the new changing media and innovations in teaching technology data analytics legal frameworks as well as economic demographic and political pressures. The book is informed by the proposition that adhering to four principles which the authors identify as having enabled institutions of higher education to successfully navigate ever-changing and volatile pasts will enable them to flourish in the coming decades. The four principles are: 1. Be mission-centric by making all key decisions based on a core mission and set of values; 2. Be able to adapt to environmental change in alignment with the mission and core values; 3. Be committed to democratic ideals by seeking to promote them and modeling democratic practices on and off campus; 4. Be models for inclusion equity and positive social change.

Educational Access and Excellence Tapas R. Dash, Manaranjan Behera, 2018-01-30 The Association of Southeast Asian Institutions of Higher Learning (ASAIHL) has been playing an important role in educational development to promote innovative teaching research and cooperation among institutions of higher learning. Build Bright University (BBU) Cambodia had organized the 2015 ASAIHL International

Conference during 2 4 December at Siem Reap The main theme of the conference was Educational Access and Excellence The conference covered three sub themes namely i cross border higher education in global context ii excellence in education through provision of technology effective teaching and research and iii student learning outcomes Delegates from France UK Japan Singapore Hong Kong India Thailand Malaysia Philippines Vietnam Taiwan East Timor Cambodia and others had participated in the conference

Only in New Orleans Luis Mirón,Brian R. Beabout,Joseph L. Boselovic,2015-07-22 With 2015 marking the 10th commemoration of Hurricane Katrina education reform in New Orleans continues to garner substantial local national and international attention Advocates and critics alike have continued to cite test scores new school providers and different theories of governance in making multiple arguments for and against how contemporary education policy is shaping public education and its role in the rebuilding of the city Rather than trying to provide a single unified account of education reform in New Orleans the chapters in this volume provide multiple ways of approaching some of the most significant questions around school choice and educational equity that have arisen in the years since Katrina This collection of research articles essays and journalistic accounts of education reform in New Orleans collectively argues that the extreme makeover of the city s public schools toward a new market based model was shaped by many local historically specific conditions In consequence while the city s schools have been both heralded as a model for other cities and derided as a lesson in the limits of market based reform the experience of education reform that has taken place in the city and its impacts on the lives of students families and educators could have happened only in New Orleans
