

Quality upgrade

The emphasis on quality upgrade concentrated on the fuel delivery system, the body construction methods and techniques, body corrosion resistance, and the electrical system. The basic engine mechanical system, chassis and drive train systems remain unchanged.

Exterior changes

The exterior styling underwent subtle but effective changes producing a fresh appearance to the classic Jaguar form. New glazing (coupe), new front and rear bumpers, and new front and rear lighting complement the styling changes.

Vehicle systems changes

A new engine management system with on-board diagnostics (OBD), a new fuel delivery system, new cruise control, air conditioning revisions, and new electrical system construction methods and componentry upgrade the existing Jaguar systems.

Interior changes

New restyled powered seats with memory (driver's side), color keyed dash panel, new door casings, new instrument pack, new trip computer, new clock and message display, door mirror memory, new switch gear, climate control revisions, and a new in-car entertainment system with optional CD autochanger enhance the XJS driving experience.
