Superintendent of Public Instruction,1906 **The Knowledge Gap** Natalie Wexler,2020-08-04 Essential reading for teachers education administrators and policymakers alike STARRED Library Journal The untold story of the root cause of America s education crisis It was only after years within the education reform movement that Natalie Wexler stumbled across a hidden explanation for our country s frustrating lack of progress when it comes to providing every child with a quality education The problem wasn t one of the usual scapegoats lazy teachers shoddy facilities lack of accountability It was something no one was talking about the elementary school curriculum s intense focus on decontextualized reading comprehension skills at the expense of actual knowledge In the tradition of Dale Russakoff s *The Prize* and Dana Goldstein s *The Teacher Wars* Wexler brings together history research and compelling characters to pull back the curtain on this fundamental flaw in our education system one that fellow reformers journalists and policymakers have long overlooked and of which the general public including many parents remains unaware But *The Knowledge Gap* isn t just a story of what schools have gotten so wrong it also follows innovative educators who are in the process of shedding their deeply ingrained habits and describes the rewards that have come along students who are not only excited to learn but are also acquiring the knowledge and vocabulary that will enable them to succeed If we truly want to fix our education system and unlock the potential of our neediest children we have no choice but to pay attention **International Index to Periodicals** ,1924 An author and subject index to publications in fields of anthropology archaeology and classical studies economics folklore geography history language and literature music philosophy political science religion and theology sociology and theatre arts

professional efforts of over 3.1 million teachers statistics from the Center for Educational Reform 2011 and several recent major Department of Education Programs purported to solve all our educational shortfalls in short order the American Educational System AES continues to fail virtually all American students with unsatisfactory educational outcomes that will last lifetimes and deeply impact our global presence This inability to implement much needed change occurs because at its root the AES is a series of givens that have created a caste like situation where students are unable to perform to their potential because of inflexible system constraints This book proposes a new paradigm for the AES based on existing capabilities aimed directly at the American ideal of life liberty and happiness read that as preparation for opportunity and life for every student Interestingly the resulting solutions can be achieved within the existing resources and capabilities The author structured this book into three highly documented step by step discussions 1 A review of the elements of today's caste environment that require attention 2 A discussion of the paradigm elements that are needed to change the AES culture and environment and 3 A vision of how these changes would impact the entire AES as a system not just as single focuses that always seem to miss the mark Chapter by chapter the text builds a case for establishing an AES that is so successful that it would be virtually invisible within the American Democracy we all seek to prosper in and enjoy
