Teaching Modern Foreign Languages in Secondary Schools

Ann Swarbrick,2013-10-11 A companion to Aspects of Teaching Secondary Modern Foreign Languages this book charts developments during the past few decades of reform in MFL teaching considering the origins of these reforms and analysing their impact on the classroom The reader is divided into four sections Controversies and disagreements is an overview of changes to MFL teaching and learning during the last thirty years MFL schools and society looks at the role of MFL in a wider social and educational context Developing strategy looks at how more effective MFL teaching might be achieved Research and the MFL teacher looks at the implications for classroom practice of recent research into MFL teaching and Learning

*The Life and Death of Secondary Education for All* Richard Pring,2013-05-07 Is there life after death for secondary education This book focuses upon the quality of learning Reform so called too often begins with qualifications examinations institutional provision paths of progression All those are very important but their value lies in the support they give to learners and their learning in its different forms One needs to start with the aims of education and then with what it means to learn practically theoretically morally and with the very many different needs of the learners That is what this book aims to do In so doing it will be both philosophical in analysis and empirical in example So much is happening from down below that goes unrecognised by policy makers But innovations too often get hampered by government interventions by a bureaucratic mentality and by failure to spread good practice The general argument of the book therefore will be illustrated throughout with detailed references to practical developments in schools colleges the third sector youth work independent training providers and professional bodies across several countries The book builds on Education for All which was based on 14 19 research into secondary education this book transcends the particularities of England and Wales and digs more deeply

into those issues which are at the heart of educational controversy policy and practices and which survive the transience of political change and controversy The issues the aims of education standards of performance the consequent vision of learning the role of teachers progression from school to higher or further education and into employment the provision of such education and training and the control of education are by no means confined to the UK or to this day and age Pring identifies similar problems in other countries such as the USA Germany and France and indeed in the Greece of Plato and Aristotle and offers solutions with a comparative perspective It is a critical time Old patterns of education and its provision are less and less suitable for facing the twenty first century The patterns and modes of communication have changed radically in a few years and those changes are quickening in pace The economic context has been transformed affecting the skills and knowledge needed for employment The social world of young people raises fresh demands hopes and fears A global recession has affected young people disproportionately making quality of life and self fulfilment ever more difficult to attain In addressing learning and the learners first and foremost the book will argue for a wider vision of learning and a more varied pattern of provision Old structures must give way to new      **The Times Index** ,2007 Indexes the Times and its supplements      **Edexcel GCSE French** Clive Bell,2009
